

Coming July 9, New Department of Highway Safety and Motor Vehicles Website.

As part of the “Making Changes that Matter to You!” campaign, the Department of Highway Safety and Motor Vehicles will release an enhanced website on July 9, 2008. This new website will simplify finding information of interest and facilitate transactions with the Department. Whether customers need to check their driver license or vehicle registration, get live traffic and crash reports, find a convenient office, or contact one of our divisions, it will all be readily accessible through the new portal.

The new site will feature a user friendly layout, a popular links section with frequently accessed sites, a “How Do I” section answering the most frequently asked questions, and important public and consumer safety tips to name only a few. The website development and implementation was done with existing Department resources so no additional cost was incurred during its development. We think you will be pleased with the new look and feel of the website.

The Department of Highway Safety and Motor Vehicles touches the lives of every Floridian and every visitor to our great state. We are here to serve you, and we take that responsibility seriously. One of the most effective ways you can help us continue to improve is to take a moment and complete our on-line customer service survey.
