**AMENDMENT TO MEMO DATED JULY 15, 2013**

TO: Law Enforcement Agencies

FROM: Maureen Johnson, Chief *Maureen Johnson*  
Division of Motorist Services  
Bureau of Records

SUBJECT: Use of Driver License Photo

We have had a few questions regarding use of the driver license photo obtained through DAVID and whether or not it can be stored on a separate database that is maintained by a Law Enforcement Agency.

DAVID photos may be used for photo line-ups and arrays. Keep in mind that the photos used for this purpose become public records at that point and are subject to compliance with public record statutes.

The Department does not permit DAVID photos to be copied "in bulk" in order to create new photo databases separate from the DAVID system. This does not preclude DAVID photos from being included in electronic or hard copy case-management files, investigative files, intelligence files, and other law enforcement sensitive documents such as bulletins, BOLOs, and intelligence products.

I trust this information clears up any misunderstandings or questions. If you have additional questions please email [DAVIDSupport@flhsmv.gov](mailto:DAVIDSupport@flhsmv.gov).
