Driver license and identification cards have changed! Cards issued on or after September 1, 2009, display the customer's name on two lines, typically with the first and middle names on line one and the last name on line two.

The form number (ex: Q123456789000) is no longer printed on the front of the card; it will continue to print on the back. A revision date now appears on the back of the card under the form number.

Additionally, cards printed after November 16, 2009, display the name and signature of our new Executive Director, Julie L. Jones.
