

September 10, 2014

TO: Red Light Camera Vendors

FROM: Maureen Johnson, Chief 
Division of Motorist Services

SUBJECT: Red Light Camera FTP File Format and Registration Stop Changes

The Department is scheduled to deploy changes to the Red Light Camera MPS 200A FTP file on September 26, 2014.

The modification in the September deployment prevents registrations stops on vehicles owned and operated by commercial lease companies and the MPS 200A FTP file will allow the driver license number to be sent to the Department. The MPS 200A modification file layout is attached.
