

DEALER ADVISORY
DIVISION OF MOTORIST SERVICES
BUREAU OF MOTOR VEHICLES FIELD OPERATIONS

To: All Licensed Recreational Vehicle Dealers, Manufacturers, Importers and Distributors

Subject: Adding New Recreational Vehicle Line-Make(s) to an Existing License

Advisory

Date: 10/31/2011

Implementation

Date: 11/1/2011

Ed Broyles, Bureau Chief

Advisory Number: BMVFO11-06

The Bureau of Motor Vehicle Field Operations is simplifying the current requirements for licensed recreational vehicle dealers when adding an additional recreational vehicle line-make to their recreational vehicle dealer license at an established location.

Subsequent to an approval letter from the manufacturer, importer or distributor, the line-make will be added to the dealer's license immediately. The Department will advise the recreational vehicle dealer, manufacturer, importer or distributor and the responsible Regional Office via e-mail of the line-make addition to the existing license.

This change will eliminate the need for a dealer to complete an application. Once the dealer receives our e-mail advising that the additional line-make has been added, they can begin accepting shipments and selling the new line-make.

Valuable information on licensing procedures and requirements is available at the Department's website at <http://www.flhsmv.gov/html/titlinf.html> and selecting "**Dealer, Manufacturer, Distributor and Importer Information.**"
