To Commanding Officer Troop F:

I would just like to take some time out to make a comment to the commanding Officer of Troop F.

Today I was stopped on Route 951 just north of its intersection with I-75. I was speeding which was detected by Laser Gun used by one of your Troopers.

I am not complaining about being apprehended for a violation. I would just like to tell you that the Trooper who interviewed me, Trooper Shepherd Shield #12694, (I hope I spelled his name and read his number correctly, the ticket was a bit hard to read!), impressed me very much.

Trooper Shepherd was extremely professional and courteous; his appearance was also very professional. Thank you for employing men such as this.

Keep up the Good work!

Sincerely,

William J. Oberdorster
