Dear Sir :

This letter is to commend one of your Officer's, Brannon Snead #1483. On Wednesday Sept. 9th, 2001 I received a citation for 5-9 miles over the speed limit by stationary radar on Walden Road / Broadtree Court. Officer Snead was very polite and compassionate, and treated me with the upmost respect. He Could have arrested me for driving with a revoked license and taken me to jail. Instead he listened to my Plea for help. My daughter is Asthmatic and I needed medicine for her. I realize that what I did was wrong but I was acting under concern for my daughters health. It is rare today that anyone has genuine Compassion for another and I just thought it important that he be complimented. My husband is grateful As well for not towing our vehicle, and allowing it to be picked up. In the wake of the terror going on in the country it is good to know that people especially in Law Enforcement still have human emotions. Thank you and Sgt. Hodge for having groomed such a kind Officer for the publics service.

Sincerely:

Sandra Hightower Pace
