Attention: Captain R. Kelly

Dear Captain Kelly

I am the courier for People's First Community Bank. On September 12, 2001, @ 2.55 p.m. I was traveling by company van in the northbound lanes of State Rt.# 9A when the left rear tire "blew out".

In the midst of my attempt to change the wheel with the spare it began to rain heavily.....I mean - really heavy. During this time, State Troopers P. L. "Trish" England and D. J. Perrotta pulled up and gave me tremendous assistance and protection. Now, I understand troopers will stop and investigate, etc., however Trooper England went way and above that. In the midst of a tremendous downpour which lasted for about an hour, and which SOAKED all three of us, she helped me beyond belief. Without her knowledge, the use of her "jack", (mine was inadequate for raising the van) and her actual physical assistance in raising the van, I believe I would still be there !!

Will you please convey to both troopers my most sincere gratitude for everything they did in order to assist, protect, and care for me.

Trooper England is a credit to the Florida Highway Patrol and our society. I am forever grateful.

Very truly yours,
