

Dear Capt Schmidt:

This is in regards to Darryl T. Davis, a trooper who was giving citations a couple weeks ago and my son Was one of them Joshua Cox. I have just recently been released from the hospital with partial amputation of my foot. When I arrived the trooper was writing stuff and I introduced myself and asked him to just shoot me....life had been hard this year ah he said things will get better..He could have made my day a day of hell instead he was so pleasant and certainly treated both parties fairly. Looking at my sons car it looks like a piece of crap I explained he's worked very hard making it look like that I have the parts bills to prove it.

In this day and time its sad that we can't just go on our efforts it always helps to get a letter of praise, I've worked for Hospice almost 17 years and it's the same thing so please let it be known that Trooper Darryl T. Davis is out there among the public committing random acts of kindness , he's a fair and very professional officer.....Please tell him thanks again for me....he might remember me is you say the lady with the amputation on her foot....

Sincerely,

Nola M Cox
