

To whom it may Concern:

I want to commend Lt. Lavada Curry for her above and beyond effort to assist me in discovering the fraudulent persons and actions that made me a victim. Lt. Curry went out of her way to listen to my plight and to remarkably stay after her shift was done to track down the perpetrators. Her empathy and ability to feel a victim's loss was amazing. I cannot tell you how astonished I was, when she called me back and revealed her passionate drive for justice and for what was right.

When I originally hung up the first time, I truly believed that no one cared or gave a damn that I got screwed. Lt. Curry has restored my faith not just in society, but more so, in our law enforcement, especially our Highway Patrol. I have a special place in my memories and for Lt. Curry's effort and caring, that I will remember the rest of my life.

Sincerely
