Lt. Rushing,

Thank you for giving the Safety Council some of your valuable time to bring us information on road rage. I am sure that everyone present walked away with a better understanding of the causes and the results. I appreciate and applaud your efforts in trying to make our highways safer.

I hope that all those that picked up the earphones will use them when they drive.

If the Safety Council can be of any assistance to you, please feel free to give us a call.

Sincerely

Donald Lee Bingham
