Dear Major Brown

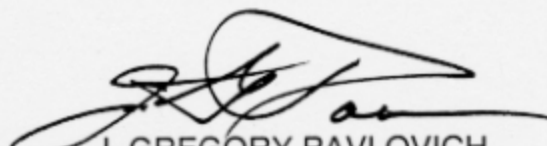

On behalf of the men and women of the 45th Space Wing, I would like to thank Lieutenant Chuck Williams for the outstanding presentations he provided on 3 July in support of our 125 Critical Days of Summer Campaign.

Lieutenant Williams' message on the various aspects of safe vehicle operations, Florida law and the retribution for violators were conveyed and illustrated in a convincing manner. The numerous accolades we have received from airmen to commanders are evidence that his message was totally on target and will have a profound and lasting impact on our wing personnel. Too often we fail to realize that the unnecessary risks that we take can result in devastating consequences that will stay with us for a lifetime.

Again, please extend my sincere thanks to Lieutenant Williams for his superb performance, and we hope to have him back soon!

Sincerely

Thank you!

J. GREGORY PAVLOVICH
Brigadier General, USAF
