Dear Lt. Burroughs,

We thank you so much for your service to the community in promoting the Primary Seat Belt Law. We appreciate your presence at our monthly FELLOWSHIP Supper on Wednesday, May 14. Your concern for the lives of our children and teens - and all of us - was very apparent. You have a passion for saving lives and lessening injuries through the use of seat belts.

Your message was clear. But most importantly your delivery was presented in such a way that even our youngest attendees were able to understand. You continuously kept our attention. It is our prayer that you will be able to reach many more people as you go about your profession, and that you will have an opportunity to know that you have helped in reducing the loss of life.

Sincerely,

Pastor David Paul
