DIVISION OF FLORIDA HIGHWAY PATROL

TROOP "G" HEADQUARTERS

August 15, 2003

TO: Captain Jeffrey L. Succi

FROM: Major Grady Carrick
Troop Commander *GC*

SUBJECT: Commendation – Computer Network Administration

For the past several years you have done an excellent job of installing, maintaining and troubleshooting computers for troops "G" and "B". The talents that you have with respect to this type of work ranks with personnel who are "full-time" network administrators for our agency. Through your efforts, their job is made much easier, and the personnel in our troops benefit greatly.

On a number of occasions, you have worked extra hours to insure that everyone has a working computer. Two examples of this were when you recently installed new computers in various offices and another case was your work counteracting the "worm virus" that infiltrated our system from another part of the state. This extra effort and unselfish work is an example of your excellent work ethic.

I want to thank you for the outstanding job and for using your special talents to benefit everyone. Keep up the good work!

GTC
