Dear Major McCarder

On February 4, 2003 at 1:05p.m. I was involved in an accident on Rte. 95 and Officer Michelle Wilson responded to the scene.

She was very professional and stayed with us and our car which was disabled on the interior breakdown lane for 2 plus hours until the wrecker responded. She had to continually contact the dispatcher to get a wrecker to respond.

In my estimation Officer Wilson went above and beyond the call of duty and should be recognized for her professionalism. As a professional person servicing my community my entire career as a pharmacist, it is nice to have someone go the extra mile.

I think the motorists of Florida are fortunate to have this type of person patrolling the highways .

Sincerely yours

Walter F. Foley
