Dear Colonel Knight,

From August 9th through August 16th your agency participated in a joint DHS/FDLE training video regarding mass migration issues, which was filmed in Key West, Florida. The completed video will be part of a training curriculum to give immigration authority to local and state law enforcement officers during times of a mass migration emergency. Your agency exhibited a high level spirit of inter-agency cooperation that made the successful completion of the project possible. I especially want to thank Trooper Susan Josephson for her participation and assistance. Trooper Josephson played a main role in this national training video and her professional demeanor during the filming reflects the Florida Highway Patrol in a most positive and proficient manner. Please thank her for me for her selfless contributions to this project.

Sincerely,
