RE: Presidential Debate on September 30, 2004

Dear Colonel Knight:

On behalf of the University of Miami Department of Public Safety, I would like to thank you and your department for a very successful event. We have received many post-debate compliments and positive press as a result of the efforts of the Florida Highway Patrol and the other law enforcement agencies on campus.

Because of the outstanding planning, preparation, coordination and implementation efforts by Major David McCarter, his staff, and the many other members of the Florida Highway Patrol who participated in this debate, we couldn't have asked for a better police operation during the debate and all of the related activities on campus.

It has been a pleasure working with your staff to make this happen in a professional, successful manner.

Once again, thank you very much for the professional response to a very difficult, trying international event.

Sincerely,

A handwritten signature in cursive script that reads "Henry L. Christensen".

Henry L. Christensen
