Dear Sir:

On September 13, 2004 one of our company tractor/trailers was involved in a serious accident in Green Cove Springs. Due to Life Flight and heavy traffic control, our company was unable to obtain information at the scene.

A telephone call to the investigating trooper was not only returned, but the information needed by our company was hand delivered in person by Trooper M.L. Quade.

You are most fortunate to have this professional law enforcement trooper under your command.

I trust I have been of service to Trooper Quade as he was to our company.

Sincerely,

Vincent Howell
Safety Director
