Dear Sir,

On September 22, 2004, I was involved in a car accident in Fort Walton Beach Florida.

The Trooper who came to the accident site is TROOPER W. B. TILLER.

I wish to convey to you how efficient he was in carrying out his duties. More importantly to me as the victim, he was kind, and compassionate. He and another Trooper, whose name I do not have, took wonderful care of me.

After all the formalities had taken place, and my car was towed off, they made sure that someone was coming to take me home.

When my husband drove by, not seeing me, they followed him, got his attention and told him where I was... in their great care.

It really does give me great pleasure in being able to write a letter like this. I hope these two gentlemen are duly credited for their good work.

Yours sincerely,

A handwritten signature in cursive script that reads "Margo P. Evitts".
