Dear Chris,

I would like to express my thanks on behalf of Allyn International Services Inc., the GE Energy Routing Center and GE Energy for your help in providing FHP escorts on little notice for the critical transformer shipment we had on January 14, 2006. Your can do attitude and willingness to serve irrespective of the time of day was appreciated and impressive. The shipment arrived on time, helping to keep the nations electrical grid up.

I hope to have the chance to meet you in person some time. Thanks again for the support.

Sincerely yours,

  
Allen Trevett
