RE: Enclosed Warning Notice

To Whom It May Concern:

I feel the need to express my sincere appreciation to the Noted Officer, and to his Superiors, for the courteous and professional manner in which he did his job.

Without hostility, disrespect, and with complete control, he considered the circumstances of a very unpleasant situation of death, my trying to make it to my nehews' funeral on time, coupled with being on a long stretch of road and the need for restroom facilities.

I truly respect the law, and am a law abiding citizen. I was speeding, I didn't try to lie out of it, and I thank God, he let it be a sensitive, sensible, and professional officer who stopped me, and gave me a warning.

I just want to commend and thank him again for his assessment of the situation.

Yours truly,

Alice M. Baker
