re: Corporal Chris Nussbaumer, Troop A

Dear Colonel Knight,

I would like for you to know what great job Corporal Nussbaumer did recently. I contacted him for a client whose brother had given false information to Corporal Nussbaumer (identity theft). Corporal Nussbaumer returned my telephone call on the same day that I left the message. He met with the innocent party that afternoon to further investigate the matter. The very next day, Corporal Nussbaumer had the citation dismissed against my client- the innocent party. This conscientious and expeditious response saved a lot of time waiting for me to have to get a hearing set. In addition, it cleared the suspension that had already been issued on the innocent party's license.

I was a prosecutor for three years, and I have never received such a quick response from any law enforcement officer. In addition, I was a deputy sheriff for five years before attending law school. I can honestly say, I don't know that my response would have been as timely as that of Corporal Nussbaumer. Too often, you only hear the negatives about your Troopers. This Trooper is definitely an asset to your agency as evidenced by his true professionalism.

Sincerely,

Darlene F. Dickey, Esquire
