

January 9,2007

Colonel Christopher A. Knight
FHP
Neil Kirkman Building
2900 Apalachee Parkway
Tallahassee, FL 32399

Dear Colonel Knight,

I am sending this letter to you in praise of one of your officer's, Sgt. Reynaldo Sanchez-ID/Badge No-0408/1375. I was involved in a collision of 12/8/2006. For your reference-Invest Agency Report Number-FHPK060FF070340 and HSMV Crash Report Number 77029411. Having never been in a car accident since moving to Florida almost seven years ago, this was my first and hopefully last experience with having to deal with an FHP person in this realm. Please understand, it was raining, there were four cars involved, traffic coming and going in both directions, tow trucks, ambulance and fire trucks all seem to be there at the same time. Sgt. Sanchez directed all involved with great precision and with a very nice calm about him. I was fortunate out of all involved as I was able to drive my banged up vehicle home with no injury. What was incredible to me was that how he handled it all. On some levels it was likened it to a conductor orchestrating a symphony to perfect harmony. I have always had a high regard for law enforcement at all levels. My experience with Sgt. Sanchez helps reinforce my positive view of the Florida Highway Patrol.

I am sure that letters of this kind are few and far between. Please know that there are more people who feel like I do so let this letter represent more then that of myself.

Sincerely,

Richard J. Leitner
