Dear Colonel Czernis,

My son and I had the opportunity to attend the October 25th Drivers Edge Program in Orlando, FL. The presentation given on accident avoidance, car maintenance and safety was excellent. We learned a great deal and plan to follow the presenter's instruction and suggestions. The program provided an excellent forum for us to ask questions. The material distributed will be most helpful, and we look forward to sharing our experience with several friends who were unable to attend.

There is a definite need among teen drivers to become better informed on the topics covered during the program. Driver's Education in the school system comes nowhere near the level of instruction needed to help our teens become safe drivers. I only wish that the Driver's Edge program to be expanded to reach more teen drivers.

Thank you for your support of a program that provided such an informative and pleasant afternoon.

Sincerely,

Brenda Hallenbeck
