EXECUTIVE SUMMARY

☑ In-office visits by motorists increased 2.3 percent from the previous quarter, as the department served 1,877,683 customers in driver license field offices.*

* This includes customers served in both DHSMV and tax collectors' offices.

☑ 689 highway deaths were reported in the first quarter of fiscal year 2006-2007, a 14 percent decrease from the same quarter of the previous fiscal year.

☑ There were 4,733,197 organ donors registered through the organ donation sign-up program as of the end of the first quarter, an increase of 94,644 from the previous quarter.

☑ Inspected 2,246 motor vehicle and mobile home dealers' records for compliance with established standards, and issued 1,920 dealer and manufacturer licenses.

☑ Suspensions, revocations, and cancellations of driving privileges increased 11 percent, as 504,630 actions were taken. Additionally, 117,734 insurance suspensions were issued.

☑ DUI enforcement remained a priority as 14,547 administrative (roadside) suspensions were issued by all Florida law enforcement jurisdictions to drivers with unlawful blood alcohol content or for failure to submit to a sobriety test. This includes 317 suspensions to drivers under 21 for violations of the Zero Tolerance Law.

☑ Issued 1,601,839 new and used vehicle/vessel titles and title transfers.

During the first quarter of fiscal year 2006-2007, the Department of Highway Safety and Motor Vehicles continued its efforts to provide the citizens of Florida the most efficient, effective, and safe driving environment through public education and awareness; its regulatory title, registration, and licensing programs; and the Florida Highway Patrol's (FHP) law enforcement efforts.

☑ During the first quarter, the department collected \$355,254,030 in revenue.

☑ There were 10,150,905 motorist services transactions conducted during this quarter (driver license/ID card transactions and motor vehicle/mobile home registrations). The Internet accounted for 714,953 of these transactions, or seven percent.

☑ The FHP cited 3,001 individuals for DUI violations, an increase of 11 percent.

☑ The FHP arrested 2,449 individuals for felony violations, a 10 percent increase.

☑ The FHP cited or warned 384,147 citizens for traffic or equipment violations, a nine percent increase.

☑ The FHP rendered assistance to 79,804 motorists with disabled vehicles.

Note: Unless otherwise indicated, current quarter statistics are compared to the prior quarter. Further information is available at the department's web site at www.hsmv.state.fl.us. Some variances from previous quarter may be due to a change in reporting methods.

Quarterly Highlights

Making Changes That Matter to You

The Bureau of Administrative Reviews launched two new customer service enhancements this quarter that will save customers time and money as well as improve the efficiency of services. Hearing Officers are now able to conduct formal hearings by telephone when no witnesses will be subpoenaed.

In addition, a successful pilot project has allowed hearing officers and field supervisors direct access to clerk of court's records. This enables them to determine whether there are any outstanding citations posted to a customer's record. Previously, the customer had to obtain a letter from the court in their county prior to their hearing. The new process saves the customer time and money as well as allowing DHSMV to check that there are no outstanding citations in any county.

FHP Announces Completion of Radio System

On July 14, 2006, at the Florida Highway Patrol Regional Communications Center in Miami, the Florida Highway Patrol announced the completion of the statewide law enforcement radio system. The system is a product of a partnership between the state and M/A-COM, a unit of Tyco Industries. This radio system enables law enforcement officials to communicate easily throughout Florida during disasters and other emergencies. The statewide system will enable more than 6,500 officials from 17 state agencies to communicate seamlessly throughout 59,000 square miles of Florida and up to 25 miles offshore.

Personalized Plate Inquiry

Personalized License Plate Inquiry

Before making a trip to your local tax collector's office, use this service to find out if a proposed personalized plate configuration is available.

Enter each desired personalized plate configuration in one of the boxes below. Configurations can have a maximum of 7 characters. Eligible plate types depend on the [length of the configuration](#).

	Input your personalized plate configurations: ^[1]	Availability Status: ^[2]	Eligible plate types based on length of plate configuration:
1.	<input type="text"/>		
2.	<input type="text"/>		
3.	<input type="text"/>		
4.	<input type="text"/>		
5.	<input type="text"/>		

A new online service was added that allows motorists to find out whether a proposed personal plate is available. Customers can enter a proposed plate with up to seven characters. The system will let them know immediately whether the configuration is acceptable and the plate is available.

Graduation Day for the 112th

On July 27, 2006, the Florida Highway Patrol's 112th recruit class graduated in a ceremony at the Leon County Civic Center in Tallahassee. Executive Director Fred Dickinson, introduced Governor Jeb Bush as the Commencement Speaker.

The 112th Basic Recruit Class began their training in January 2006 and the 112th Certified Recruit Class began theirs in June. This class has the distinction of being the first class to begin their training at the new academy in the Pat Thomas Law Enforcement Academy

in Havana, Florida. Governor Bush left the recruits with these words, "You are now a member of a very elite family. Make your family proud."

"Drunk Driving. Over the Limit. Under Arrest."

The Florida Highway Patrol joined other law enforcement agencies in the Labor Day crackdown *Drunk Driving. Over the Limit. Under Arrest*, which began August 18, and concluded September 4, 2006.

Records show that 1,239 people were killed in alcohol-related crashes during 2005. This was a 13.4 percent increase over 2004. It was the most people killed in alcohol-related crashes since 1990 when 1,365 alcohol-related fatalities were recorded in Florida.

In an effort to curb this alarming trend, Colonel Knight stated that Florida troopers will be intensifying their efforts to apprehend impaired drivers by conducting DUI checkpoints and saturation patrols throughout the state.

Highway Safety

OBJECTIVES

1. Increase highway safety on patrolled highways.
2. Increase motorist compliance with traffic laws on patrolled highways.
3. Reduce criminal activity on patrolled highways.
4. Increase highway safety education for the motoring public.

** Time used to respond to calls for service or to perform functions/activities including crash investigations, DUI investigations, assistance rendered, etc.

*** Time used to perform functions/activities for enhancement of patrol operations, such as training, squad meetings, etc.

Note: There was a change in reporting methods beginning this fiscal year that may result in slight variances.

TROOPER OF THE MONTH PROGRAM

Each month, the FHP recognizes a member or members whose exceptional efforts increase the safety of Florida motorists through intervention in tragedies and catastrophes affecting residents and visitors on Florida's roads.

Trooper Edward Pope, Troop F – July 2006 Third Time Award

On July 27, 2006, Trooper Pope was dispatched to a crash in Charlotte County and advised that a vehicle was sinking in the water. He saw two men, one trying to get out of the passenger side window and the other clinging to the roof of the sinking vehicle.

Trooper Pope ran into the water, which was above his head in certain areas and reached for the passenger trying to exit the vehicle and brought him to an area of the water where he could stand and return to shore. The passenger told Trooper Pope that his father could not swim, so Trooper Pope returned to the sinking vehicle to retrieve the elderly driver who was clinging to the roof. Trooper Pope grabbed the elderly man, held him in his left arm, and swam to an area where he could stand.

After the two men were safely on the shore, several bystanders pointed at two alligators swimming toward the van. When Trooper Pope discovered that the two men had no one to pick them up from the scene, he transported them to their place of employment in Fort Myers.

Trooper Myron Wagner, Troop A – August 2006

While taking a break at a nearby restaurant at 4:00 AM, Trooper Wagner became aware that a team of burglars were behind a local restaurant on 23rd Street in Panama City. Trooper Wagner responded to the area alone and observed the suspects taking items out of the back of the business. He was able to apprehend them and stop the crime in progress. Back-up arrived shortly and all of the suspects were arrested without incident.

Lieutenant Roley Kiker, Troop A – September 2006

On Monday, September 18, 2006, Lt. Kiker was off-duty when he observed an Escambia County Sheriff's Office deputy exiting his patrol car with his firearm drawn. After immediately notifying the Tallahassee Regional Communications Center of the situation, Lt. Kiker stopped and took up a defensive position to back up the deputy. The deputy then informed Lt. Kiker that the suspect, who was sitting in a vehicle in a ditch, was armed and had just tried to rob a local grocery store in the area.

Lt. Kiker and the Escambia County deputy gave repeated commands to the suspect, directing him to drop the weapon and exit the vehicle. The suspect then exited his vehicle and pointed a gun at Lt. Kiker. Lt. Kiker ordered the suspect repeatedly to drop his weapon. The suspect however raised his gun at which time Lt. Kiker fired one round, striking the suspect in the abdomen. The suspect fell to the ground and was immediately handcuffed and secured. The suspect was subsequently transported from the scene to the hospital where he was listed in stable condition with no life threatening injuries. The suspect was charged by the Escambia County Sheriff's Office with robbery and aggravated assault charges. This suspect was also wanted by the FBI for bank robbery in Foley, Alabama.

Trooper-Initiated Traffic Stops

Compliance with the law depends on the public's belief that laws are enforced in a fair, unbiased manner. FHP troopers report data on each trooper-initiated traffic stop. The data includes demographic information on the driver, the reason for the stop, enforcement actions taken, and if a search is conducted, the reason for and outcome of the search. Since January 1, 2000, reports have been processed for **4,421,684** traffic stops. The following table shows the relatively close match between the driver demographics and the overall Florida resident demographics during the quarter, as reflected in the 2000 U.S. Census:

Race	Drivers Stopped	Census
White	81.48%	77.99%
Black	16.18%	14.61%
Asian	1.79%	1.72%
Native-American	.18%	.34%
Unknown	.39%	5.34%

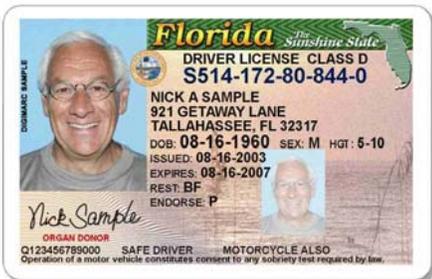

The unknown 5.34 percent of people in the Census chose a race other than those listed or chose multiple races. If this percentage were distributed proportionately among the races, the match between drivers stopped and the Census would be very close. Additionally, Hispanics comprised 15.3 percent of the drivers stopped, compared to the Census figure of 16.8 percent of the population. Hispanic is defined by the Census Bureau as ethnicity according to country of origin or ancestry, and Hispanics may be of any race.

Motorist Services

OBJECTIVES

1. Increase consumer protection and public safety by assuring Florida's citizens are properly licensed to drive.
2. Reduce criminal use of fraudulent identification and vehicle titles and ensuring motorists' compliance with the Florida Financial Responsibility Law.
3. Ensure mobile home manufacturers' compliance with construction standards.

Driver Licenses

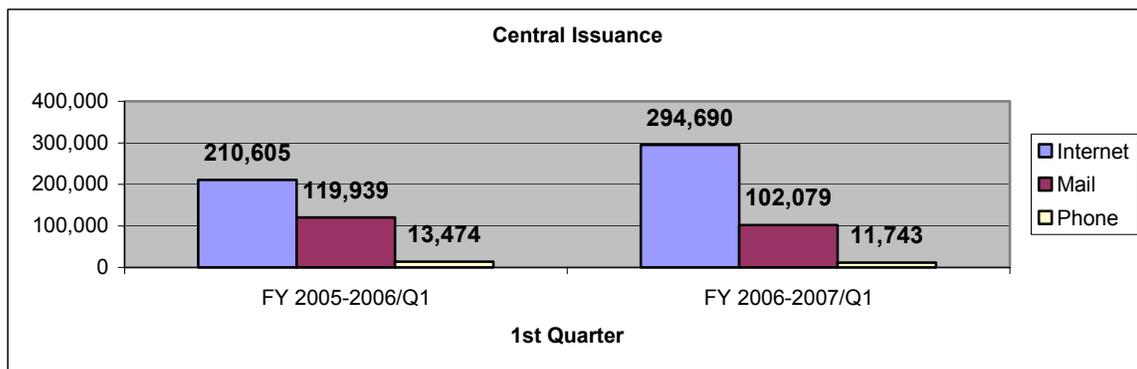

Field issuance (in-person) of driver licenses this quarter decreased by 4 percent from the same quarter last year.

Internet issuance of driver licenses this quarter increased by 40 percent from the same quarter last year.

The "Other Services" category, which is comprised of examination retests, reinstatements, record reviews, referral for clearance documents, and surrendering vehicle registrations, increased by 3.4 percent.

Field Issuance (In-Person)	This Quarter	Last Year Same Quarter	Percent Change
Licenses	963,207	1,001,405	-3.8
ID Cards	229,635	208,490	10.1
Other Services	684,841	662,179	3.4
Total Customers	1,877,683	1,872,074	.3

Central issuance – Last fiscal year additional services were made available via the Internet. This includes obtaining a duplicate license, an original identification card, renewing an identification card or obtaining a duplicate identification card. The following graph demonstrates the continuing growth in our Internet based services.

Financial Responsibility

Financial Responsibility	This Quarter	Last Year Same Quarter	Percent Change
Financial Responsibility Cases Processed	259,215	268,004	-3.3
Insured Rate	95.55%	94.78%	.81

The percent of insured that are identified by vehicle information number (VIN) is 88.11 percent for the quarter, whereas the percent of insured that are not identified by VIN numbers of vehicles, but verified by insurers, is estimated at 7.5 percent for this quarter. The total of these make the insured vehicle/motorist rate 95.55 percent, with the uninsured rate at 4.45 percent.

Administrative Suspensions

Administrative Suspensions	This Quarter	Last Year Same Quarter	Percent Change
Suspensions (Refusals, DUI)	14,547	15,755	-7.7
Suspensions (Zero Tolerance)	317	397	-20.2
Total Suspensions	14,864	16,152	-8.0
Administrative Suspension Sustained Rate	88%	89%	-1

The Administrative Suspension Sustained Rate includes both those drivers refusing to submit to a breath, blood, or urine test or for driving with an unlawful alcohol level and those drivers under the age of 21 receiving an administrative suspension under the Zero Tolerance Law. This rate tends to remain fairly constant from quarter to quarter.

The department partners with many Tax Collector offices around the state to provide driver license services. The table below breaks down transactions between state offices and Tax Collector offices.

	DHSMV Offices	Tax Collector Offices
Licenses	726,461	244,843
ID Cards	177,887	51,976
Other Services	573,048	103,468
Total Customers	1,477,396	400,287
	79%	21%

Other services includes licensing services without the issuance of a license or identification card, such as a receipt only to reinstate a sanction without issuing a new license, or an exam only transaction where the customer does not pass an examination, and non-photographic temporary driving permits.

Customer Service

Through the department's **"Commitment to Excellence Customer Comment Cards,"** driver license customers offered their comments using comment cards regarding the level of customer service received and wait times. The service ranking requested was one to ten (one being the worst service and ten being excellent service). The charts below represent customers' feedback this quarter:

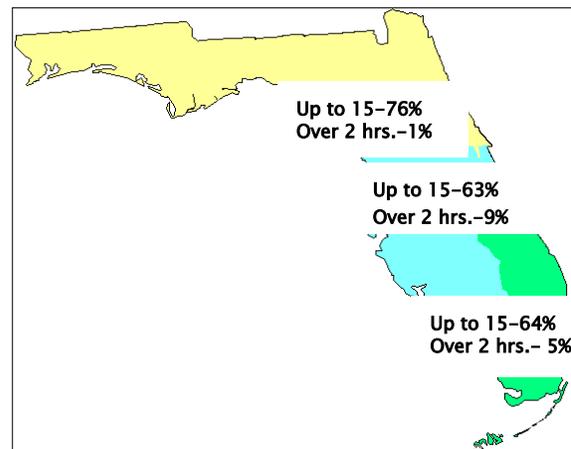

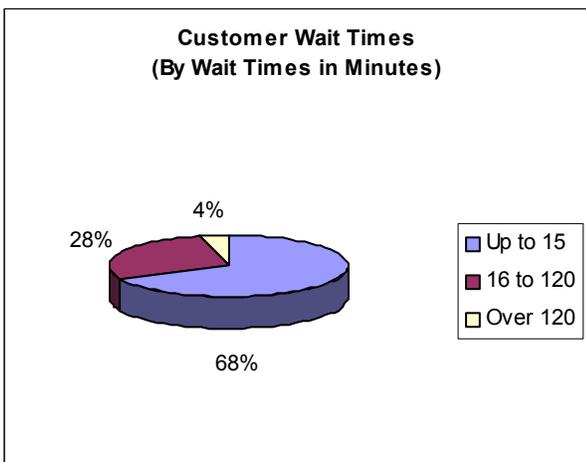

Customer Service Ranking

Customer Wait Times

During the quarter, 68 percent of customers waited "Up to 15 Minutes," and 4 percent waited "Over 120 Minutes."

Geographically, as a percentage of the total number of citizens that reported wait times for each region of the state; the "Up to 15 Minutes" wait percentages for the North, Central, and South regions were 76, 63, and 64 percent, respectively. For the same regions, for the "Over 120 Minutes" wait times, the percentages were 1, 9, and 5 percent, respectively.

ELECTRONIC LIEN AND TITLE (ELT) TRANSACTIONS PROCESSED	245,093	224,203	9.32
ELT FINANCIAL INSTITUTIONS	191	159	20.13

The 5.09 percent decrease in MV/MH Dealer and Manufacturer Licenses Issued is due to a continuing downward trend associated with the decrease in distributors, importers and manufacturers of motor scooters.

The Dealer Complaints Processed increased 10.39 percent due to a significant increase in complaint referrals from the Department of Agriculture and Consumer Affairs and the Office of the Attorney General.

The 30.58 percent increase in Dealer Record Inspections is a continuing upward trend due to a change in the records inspection process.

The decrease of 16.47 percent in MH/RV's Inspected, the 57.05 percent decrease in seals and labels issued, and the 50 percent decrease in Complaints Processed are due to a major slow down in manufactured home production.

The 33.45 percent decrease in apportioned license plates issued is attributable to a delay in processing one large IRP account and to another large IRP account leaving the state of Florida.

The 84.60 percent decrease in IFTA Decals Issued is due to a delay in receiving the 2007 IFTA decals, which pushed order processing into the next quarter.

Internet/Telephone Renewals and Address Changes

The department's **www.GoRenew.com** and the **1-866-GoRenew** are initiatives that are saving customers a trip to their local driver license and/or tax collector's office. This quarter 714,953 customers renewed their driver licenses and motor vehicle registrations and changed their addresses by Internet and 26,861 by telephone. The following table provides a comparison with the same quarter of fiscal year 2005-06:

Customer Service Center

During this quarter, the department's Customer Service Center answered 172,689 telephone calls relating to driver license and motor vehicle issues. The average wait time for customers to speak to an agent was just over four minutes.

During the quarter, automated services provided more than 219,000 customers with the ability to:

- *Receive faxed information packets on driver license or motor vehicle services.
- *Verify vehicle or driver record information.

These automated features free analysts to help customers with more complex problems. Approximately 85 percent of questions relate to driver license problems, the remainder to motor vehicle title and registration issues.

Driver License Appointment Center

During this quarter, the department's appointment center answered 131,015 telephone calls making driver license appointments in selected counties. We served Miami-Dade, Palm Beach and Broward, counties for the entire period. On August 23, 2006, we began making appointments for customers in Okeechobee, St. Lucie, Indian River, and Martin counties.

The average wait time to speak with an agent was 40 seconds.

The following graphics depict the revenue collection and disbursement efforts of the department during the first quarter.
