INSTRUCTIONS TO HOMEMADE VESSEL TITLE APPLICANT

DEFINITION:

“Homemade Vessel” means any vessel built after October 31, 1972, for which a Federal hull identification number is not required to be assigned by the manufacturer pursuant to Federal law, or any vessel constructed or assembled prior to November 1, 1972, by other than a licensed manufacturer for his own use or the use of a specific person. A vessel assembled from a manufacturer’s kit or constructed from an unfinished manufactured hull shall be considered to be a homemade vessel, provided such a vessel is not required to have a hull identification number assigned by the United States Coast Guard. **In no event shall a rebuilt or reconstructed vessel be construed to be a homemade vessel.** Pursuant to s. 328.07(2), F.S., the Florida Department of Highway Safety and Motor Vehicles shall assign all hull identification numbers for homemade vessels.

REGISTRATION AND TITLING PROCEDURES:

All undocumented homemade vessels propelled by machinery must be registered and titled in order to be operated on Florida waters. The vessel owner must file an application for registration and titling with the tax collector’s office in the county where the vessel is located or in the county where the vessel owner resides.
