

TECHNICAL ADVISORY

DIVISION OF MOTORIST SERVICES

DATE: June 20, 2016	Technical Advisory RS/TL16-015
SUBJECT: Registering the <i>Slingshot</i>	

Overview:

Polaris Industries, Inc. is marketing a new motorcycle under the name *Slingshot*. The *Slingshot* is a three-wheel motorcycle; however, it is noticeably different from the three-wheel motorcycle we are accustomed to seeing.

Details:

The *Slingshot* is marketed as a new driving experience with the open air cockpit, side-by-side seating, seatbelts, steering wheel, and 5-speed manual transmission. The double wheels are at the front of the motorcycle and the single wheel is in the rear. The driver is required to have a Motorcycle Also Endorsement or S Restriction on their driver license in order to operate the *Slingshot*.

When titling and registering the *Slingshot*, the “make” is “SLNG”, the “vehicle type” is “MC”, and the “body type” is “MC”. Proof of insurance is not required for registration.

Conclusion:

If you have any questions or need additional information, please contact the Field Support Center.
