

## TECHNICAL ADVISORY

### DIVISION OF MOTORIST SERVICES

<b>DATE: 02/08 /2017</b>	<b>Technical Advisory RS/TL17-004</b>
<b>SUBJECT: <span style="color: red;">SECOND UPDATE</span> ORION Electronic Filing System (EFS) Release</b>	

#### Overview:

NOTE: The deployment for the software modifications to ORION EFS were not deployed on Tuesday, February 7, 2017, at 9:00 p.m. EST. We will notify you when the deployment is rescheduled.

NOTE: The deployment date for the software modifications to ORION EFS been postponed until Tuesday, February 7, 2017, at 9:00 p.m. EST.

The following software modifications to ORION EFS will be released statewide on Tuesday, February 7, 2017.

#### Details:

The ORION EFS release contains minor changes to ORION EFS.

- The Dealer Issuance Log screen will now display the total number of logs that are under review by the tax collector/license plate agent instead of the current maximum of 101.
- The EFS Transaction Summary Report retrieved through FRVIS for a date range will now contain the correct remittance totals. Currently, the report is only correct when run for a single day.
- The Outstanding Initials and Finals Report retrieved through the Log Search screen in ORION EFS will contain all outstanding logs. Currently the report maxes out at 5,001 records.
- Currently the system does not exclude the time that the log is under review with the tax collector/license plate agent when assessing the late penalty following a rejection. Since dealers cannot make changes to the deal while it is under review, the review time will not be used when determining a late penalty.

The following are performance enhancements to the Activity search:

- The User Activity Summary report retrieved through ORION EFS can now be run for a single day by entering the same date. Currently the system requires the user to enter two different dates in the Date Range fields.
- The image pop out functionality on the Issuance Review screen in ORION EFS will now display images with the rotation corrections performed by the reviewer.

If you need additional information, please contact your next level of management or the Field Support Center.
