

TECHNICAL ADVISORY

DIVISION OF MOTORIST SERVICES

DATE: 02/12/2018	Technical Advisory (TA) Number RS/TL 18-005
SUBJECT: Florida State University license plate inventory	

Overview:

Florida State University specialty license plates printed with UF00A-UF99Z, in your inventory, need to be replaced. These plates must be marked obsolete after the replacement plates arrive.

Details:

We have placed another order for more FSU plates from PRIDE for the affected offices. The time for these offices to receive the replacement plates is about 7 days.

Inventory Control staff will call the 'inventory liaison' in each affected county during February 7-12, 2018. The liaisons will then contact each office and provide instructions for receiving the replacement plates and making the UF00A-UF99Z plates as obsolete. **It is important to physically receive the new plates before making the affected plates obsolete.**

Conclusion:

If you need additional information, please contact your next level of management or the Field Support Center.
