

TECHNICAL ADVISORY

DIVISION OF MOTORIST SERVICES

DATE: 07/31/2020	Technical Advisory (TA) Number RSTL20-006
SUBJECT: Redesigned Conserve Wildlife Specialty License Plate	

Overview:

At the request of the organization, the Conserve Wildlife specialty license plate is being redesigned. The existing inventory will need to be depleted before the new license plate becomes available.

Details:

If an agency in your county needs the current license plate type before the new license plate redesign is available, please contact other agencies within your county, and transfer plates as necessary. If no license plates are available, please contact the Inventory Control Unit at (850) 617-2900 or InventoryControlUnit@flhsmv.gov.

Orders will be filled by Central Supply or transferred from county-to-county to deplete the current supply. We will approve and manufacture personalized license plate orders as usual.

Conclusion:

Thank you for helping reduce the Conserve Wildlife license plate inventory that will soon be obsolete. If you need additional information, please contact your next level of management or the Field Support Center.
