Information Notice (INFO) INFO20-027

## SUBJECT: UPDATE - NEW YORK STATE DEPARTMENT OF MOTOR VEHICLES VERIFI SYSTEM and eMV-50 CERIFICATE OF SALE, LOW-VOLUME DEALERS EXEMPTED

### **Overview:**

In 2018, New York State Department of Motor Vehicles (NYS) began requiring that licensed automobile dealers with high-volume sales enroll in the Vehicle Electronic Reassignment and Integrated Facility Inventory (VERIFI) system to record their retail and wholesale sales online using the electronic Certificate of Sale (eMV-50).

#### **Details:**

Effective immediately, high-volume automobile dealers in NYS will primarily use eMV-50s for all title transfers (in-state and out-of-state). Registration and title applications will be presented for a vehicle containing an eMV-50 Certificate of Sale receipt within the chain of ownership documents. If there are any concerns about the authenticity of the sale the issuing office may access the website https://www.verifiny.com/check and enter the eMV-50 number printed on the receipt or the vehicle identification number (VIN) to verify the sale.

High-volume automobile dealers may occasionally use a paper MV-50 form when necessary (for example, when there is a system outage, power outage, internet outage, etc.). Low-volume automobile dealers are exempt from using the eMV-50 form for all title transfers and will continue to use paper MV-50 forms.

An example of the eMV-50 form can be found on the next page.
