

INFORMATION NOTICE

DIVISION OF MOTORIST SERVICES

DATE: 05/15/23	Information Notice (INFO) INFO23-021
SUBJECT: Sheeting for Walt Disney World Personalized	

Overview:

At the request of the organization, the Walt Disney World specialty license plate is being redesigned. While Florida Department of Highway Safety and Motor Vehicles (FLHSMV) is working with the organization on the artwork for the redesigned specialty plate, PRIDE has informed FLHSMV there are no more current Walt Disney World specialty license plate sheeting available for personalized plate orders.

Details:

Inventory Control Unit is only approving personalized license plate orders for the current Walt Disney World specialty license plate. However, PRIDE has used all the remaining sheeting and no orders for personalized license plates will be made on the old sheeting. Orders are still being approved, but they will be held and manufactured on the new design.

As customers order personalized Walt Disney World license plates, please inform customers of this update.

Conclusion:

If you need additional information, please contact the Inventory Control Unit.
