(850) 878-2221
GOVERNOR CRIST: Highway Safety, Electra Bustle.

MS. BUSTLE: Good morning.

GOVERNOR CRIST: How are you?

MS. BUSTLE: Our first and second agenda items relate to appointments for our Medical Advisory Board. The Board is established by law. It's comprised of volunteers who advise the Department on medical criteria and vision standards related to safe driving. Agenda Item Number 1 is a new appointment of Dr. Lakshmin to the Board.

COMMISSIONER BRONSON: Motion on Item 1.

ATTORNEY GENERAL McCOLLUM: Second.

GOVERNOR CRIST: Moved and seconded. Show it approved without objection.

MS. BUSTLE: Item Number 2 is the reappointment of Drs. Shumate and Salvati to the Board. They have been members of the Board since 1987 and 1991 respectively.

ATTORNEY GENERAL McCOLLUM: I so move.

COMMISSIONER BRONSON: Second.

GOVERNOR CRIST: Moved and seconded. Show it approved without objection.

CFO SINK: Governor?

GOVERNOR CRIST: Yes.
CFO SINK: I do want to encourage the Commissioner to think about recruiting some female doctors to the panel. I think it would add diversity. My staff pointed this out to me. We have about 12 physicians on this panel. It's a really important advisory group, and I just encourage you the next go-around to see if we can't find some female doctors to participate.

MS. BUSTLE: That's an excellent point. Thank you.

GOVERNOR CRIST: Absolutely. You know, I appointed a female to be the director.

CFO SINK: Yes, I do.

MS. BUSTLE: It should be on my mind.

GOVERNOR CRIST: I'm sure it is.

CFO SINK: And she's doing a great job.

GOVERNOR CRIST: Well, my sister is a female doctor.

CFO SINK: Well.

GOVERNOR CRIST: There you go. No, she's in California.

Please go ahead. I'm sorry.

MS. BUSTLE: Thank you very much.

Our third agenda item is our substantive legislative proposal for the '08 legislative
session.

GOVERNOR CRIST: Is there a motion to accept?

ATTORNEY GENERAL McCOLLUM: I so move.

COMMISSIONER BRONSON: Second.

GOVERNOR CRIST: Moved and seconded. Show it accepted.

CFO SINK: Let me just --

GOVERNOR CRIST: Yes, please.

CFO SINK: Governor, if I just could ask a question. We're going from four years to eight years, is that correct, for renewal of a driver's license? Just review with us -- when someone passes the age of something, eight years just seems to be a pretty long time, maybe 90.

MS. BUSTLE: Just to go back a little bit, right now we have four- and six-year licenses, and they're allowed to be renewed for three times before they actually come into the office. So when you look at that, it's actually at the 18-year mark that they're coming into the office. This actually brings them in at the 16-year mark, so we're in the sort of long term bringing them in sooner than later. And it's in line with the Real ID Act provisions that we expect to come out. So that's how we have proposed that.
Now, when someone is 80, they have to come in and take a vision test, and then I'm not sure what the time line is after 80, upon renewal at that point. So at 80 they have to come in, and then it will go through its regular renewal provisions.

CFO SINK: Which would be another eight --

MS. BUSTLE: Correct. It would be --

CFO SINK: Sixteen years?

MS. BUSTLE: It would be eight years and then -- yes, 16 to come back into the office. Let me make sure that's correct.

CFO SINK: Wow.

GOVERNOR CRIST: Would you like to change it? I would urge a little caution.

CFO SINK: No. I think it bears looking at the statistics of -- I mean, just continuing to do thorough analysis to look at the statistics of people over the age of 80 who are involved in accidents and what the reasons are, who's at fault. I think it's something that --

GOVERNOR CRIST: It's very prudent.

CFO SINK: -- should definitely be just re-evaluated, because we may decide we do need to have them come back in before they get to be 96.

ATTORNEY GENERAL McCOLLUM: If I might make a
GOVERNOR CRIST: General, please.

ATTORNEY GENERAL McCOLLUM: CFO Sink has brought up a couple of very good points. I think this is an expense question more than anything else, I'm sure, for the Department, and savings of dollars.

But I have a security concern, and always have had, over the renewal of the driver's licenses being as long as they are in terms of actually coming in, because the photograph gets aged. And the problem I see for security purposes is that somebody changes in their looks, and we've got a card that doesn't look at all like them, and that bothers me a lot. So I just want to go on the record as saying if there's a way in the future, Electra, that we can find a budgetary way to do this to keep the pictures more current on the licenses, I would be more comfortable than 16 or 19 years. Thank you.

GOVERNOR CRIST: Let me argue for the convenience crowd. I appreciate the chance to be able to extend it, but I think you've done very well, Director, with balancing these very important issues that have been expressed by my colleagues.
here on the Cabinet, and we appreciate it.

MS. BUSTLE: Thank you.

GOVERNOR CRIST: You're welcome.

COMMISSIONER BRONSON: Governor.

GOVERNOR CRIST: Commissioner.

COMMISSIONER BRONSON: Although I did second this agenda item, I would like to ask a question on the motor carrier compliance, the out-of-service issue, because we handle a lot of motor carriers as well through our stations.

Does this -- I see where there's going to be an automatic -- what you're asking for is to cancel the registration as soon as the out-of-service order comes in. However, what if a motor carrier has extensive work done on their motor carrier that would make it compliant with Florida law again? If you automatically cancel registration without knowing whether they're going to make the repairs to make that vehicle serviceable again, then that's going to put a lot of extra work not only in the Department, but for people have to go back and try to get their registration back on that vehicle. Is there any -- could you tell me how that's going to work?

MS. BUSTLE: If I could, what I would like to
do is go back to our commercial motor vehicle
experts back at the agency. Let me see whether or
not that has been contemplated in terms of
balancing that interest over the interest of making
sure that people are in compliance. And if you
don't mind, if we can get back to you on that, but
I'll make sure that it has been discussed, and the
why or why or not in that discussion.

COMMISSIONER BRONSON: Because, I mean, I know
people that have taken basically vehicles that
would normally be registered out of service by an
officer, but it's like having your car repaired
after an accident. You can go back and --
sometimes you can go back and get these things back
in operation and put them back on the road. And it
just seems like that's an awful lot of work both
for the Department and for the individuals to try
to go back and recertify that that vehicle -- of
course, it would have to have some type of
inspection to make sure that it was reusable. But
that seems like a lot of work to automatically
cancel, just to have somebody get it ready to go
back on the road again.

MS. BUSTLE: That sounds absolutely
reasonable. It's something we should be
considering so that we're not creating more work, we're streamlining it. We'll get back to you on that.

GOVERNOR CRIST: Where are we, Electra?

MS. BUSTLE: I'm not sure we voted on that particular one.

GOVERNOR CRIST: I think we did not.

COMMISSIONER BRONSON: Yes. It was -- didn't we? Yes.

GOVERNOR CRIST: Let's make sure. Is there a motion?

ATTORNEY GENERAL McCOLLUM: I move it.

GOVERNOR CRIST: Is there a second?

COMMISSIONER BRONSON: Second.

GOVERNOR CRIST: Show it approved without objection, maybe twice. No harm.

MS. BUSTLE: Thank you. Agenda Item Number 4 is our quarterly report from July 1 through September 30, 2007. The report highlights some of the agency's accomplishments during this period and then provides our annual performance standards and where we are standing on a quarterly basis.

The only thing that I wanted to point out to you is, you will notice in the report a standard that deals with customer wait times. It's actually
an annual calculation standard. Our inspector
general goes in there once a year and times the
transactions.

We know that that has to be continuous. It
can't be just a once-a-year standard, so we're
doing more than is expected in that performance
standard. We've created an in-office survey that
we call the ASK! survey. We've collected 72,000 of
those surveys since June 2007 and demonstrate that
93 percent of our driver's license customers are
waiting 30 minutes or less, which is good news.
The actual standard is 85 percent. And then
50 percent of the customers waiting only 15 minutes
or less, and we're at 80 percent there. So our
numbers are looking good, and we do have mechanisms
that are continuously looking at the wait times,
which I know is important to all of you.

One of the things that we're requesting --
we're piloting the queuing system, General, as you
mentioned at the last meeting, and that's an
electronic system that's going to time someone from
the moment they get into the office until the
moment their transaction is done. We also have a
legislative budget request to expand that
electronic queuing system to some of our high --
all of our high volume, larger offices so we can have this continuous feedback to make sure that we're serving our customers to the best. But currently, it's a manual process to try and make sure that we are serving the customers in a reasonable time manner.

GOVERNOR CRIST: Great.

CFO SINK: Governor.

GOVERNOR CRIST: Yes, CFO.

CFO SINK: I did notice in part of your report that you reported that 93 percent, according to your records, are insured, 93 percent of Florida's drivers. And I know we're in an interim period right now. Are you continuing -- and by the way, Governor, I think we avoided a major train wreck by your signing the extension of the no-fault laws, because one of the things that I was most concerned about was going into the other system and not having any kind of enforcement provisions at the Department.

But what's happening here in this interim period? Are the insurance companies continuing to report, they're not, they're going to start back up again? If you would just give us an update on that.
MS. BUSTLE: Sure. I think it was three or four days after the signing, we continued -- the insurance companies are continuing to report. Let me answer that question. And we'll be able to have statistics for you soon. It's too early right now. But really, there was very little downtime in terms the reporting, so we feel comfortable that we'll be able to give you a legitimate statistic of the uninsured rate here when we meet for the next quarter. So, yes, we're still in line and still moving forward.

CFO SINK: Thank you.

MS. BUSTLE: Sure.

GOVERNOR CRIST: So is there a motion?

CFO SINK: Oh, I move it.

ATTORNEY GENERAL MCCOLLUM: Second.

GOVERNOR CRIST: Moved and seconded. Show it approved without objection.

MS. BUSTLE: Okay. The fifth and last item on our agenda is for informational purposes. It's the fourth of our five specialty license plates approved last session. This plate states, "Trees Are Cool," and supports the Florida Chapter of the International Society of Arboriculture and will be used for education and training in tree care and
tree safety.

Governor, with your permission, I would like
to recognize representatives from the Florida
Chapter of the International Society of
Arboriculture.

GOVERNOR CRIST: Sure.

MS. BUSLITE: They're here today.

GOVERNOR CRIST: Please do, of course.

MS. BUSLITE: Please stand when your name is
called. Don Winsett, Specialty License Plate
Chairman; Norm Easley, ISA Executive Director; David
Reilly, board member; and Ron Litts, board member.

GOVERNOR CRIST: Gentlemen, good to see you.

Thank you.

Maybe this is out of order, but do you mind if
we get a picture with the cool looking plate? Is
that all right?

(Pictures taken.)

GOVERNOR CRIST: Good information.

MS. BUSLITE: That concludes our agenda items.

Thank you very much.

GOVERNOR CRIST: Thank you. Appreciate it,
Electra.
THE CABINET
STATE OF FLORIDA

Representing:
STATE BOARD OF ADMINISTRATION
DIVISION OF BOND FINANCE
FINANCIAL SERVICES COMMISSION, OFFICE
OF INSURANCE REGULATION
DEPARTMENT OF REVENUE
DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES
BOARD OF TRUSTEES OF THE INTERNAL IMPROVEMENT TRUST FUND

The above agencies came to be heard before THE FLORIDA CABINET, Honorable Governor Crist presiding, in the Cabinet Meeting Room, LL-03, The Capitol, Tallahassee, Florida, on Tuesday, December 18, 2007, commencing at approximately 9:13 a.m.

GOVERNOR CRIST: What? Say your name again.

MS. KORST: LeeAnn Korst.

GOVERNOR CRIST: Hi, LeeAnn. Thank you.

MS. KORST: Good morning.

GOVERNOR CRIST: Good morning.

MS. KORST: Our first agenda item is approval of the minutes from the September 19th, 2007 meeting.

ATTORNEY GENERAL McCOLLUM: I move the minutes.

COMMISSIONER BRONSON: Second.

GOVERNOR CRIST: Moved and seconded. Show the minutes approved without objection.

MS. KORST: Our second item is approval of the October 2nd, 2007 meeting minutes.

COMMISSIONER BRONSON: Motion on Item 2.

ATTORNEY GENERAL McCOLLUM: I'll second.

GOVERNOR CRIST: Moved and seconded. Show them approved without objection.

MS. KORST: Thank you. Our third agenda item
is an informational item. It is the fifth and last specialty plate passed in the 2007 legislative session, and it states, "Protect Florida Springs."
The proceeds --

GOVERNOR CRIST: Good idea.

MS. KORST: The proceeds support the Wildlife Foundation of Florida and will be used for community-based springs research, education, and outreach and springs conservation.

Please join me in recognizing representatives from the Wildlife Foundation of Florida. Please stand as your name is called. Daniel Bourg, donor relations manager. Cindy Taylor, director of the aquatics program.

And at this time, Mr. Bourg would like to say a few words, with your permission.

GOVERNOR CRIST: Certainly.

MR. BOURG: Governor and Cabinet, thank you very much for this incredible opportunity to partner with the State of Florida, local government, and local community-based non-government organizations to work together cooperatively to protect Florida's springs and to provide much needed research about these great areas in Florida. Thank you.
GOVERNOR CRIST: Of course. Thank you. Are you going to get a -- go ahead.

MS. KORST: That concludes the Department's agenda items.

GOVERNOR CRIST: Are you going to get a picture?

MS. KORST: Yes, please.

GOVERNOR CRIST: Would you like a picture?

Okay.
ATTACHMENT 3
2ND QUARTER PERFORMANCE REPORT
FISCAL YEAR 2007-2008

PROVIDING HIGHWAY SAFETY AND SECURITY
THROUGH EXCELLENCE IN SERVICE, EDUCATION, AND ENFORCEMENT

ELECTRA THEODORIDES-BUSTLE, EXECUTIVE DIRECTOR
Leading the Way to... A Safer Florida!

New Virtual Office Launched - With an expiring contract for its web-based driver license and motor vehicle online services, the Department’s GoRenew.com website was rewritten to provide a single customer portal for all online transactions. The new site displays all online services that the customer is eligible for and allows them to be processed together with one payment. In December, all English transactions were processed in the new Virtual Office, 9,000 transactions were processed the first day. The Spanish version launched in January 2008.

Driving Our Future – In December, the Department finalized its Strategic Plan and is currently aligning our key activities and strategies to support our goals and objectives which drive our future. The strategic planning process included creating a vision statement, revising the Department’s mission statement to clearly define Department activities statewide, and identifying values that shape our actions. The Strategic Planning process identified four critical areas that require our focus: service delivery, communication, workforce, and performance management. Goals and objectives were created to achieve improvement and provide operational direction in each one of these critical areas. A copy of the Plan can be found at www.hsmv.state.fl.us/html/StratPlan.pdf

Successful Commercial Traffic Enforcement Campaigns – On October 24-25, FHP conducted Operation Safe Ride, a 48-hour statewide traffic enforcement detail targeting the drivers of commercial motor vehicles. During the operation, FHP issued over 4,000 citations for excessive speed, faulty equipment, and other violations. In furtherance of this effort, FHP partnered with the Florida Department of Transportation Motor Carrier Compliance from December 18-19 to improve traffic safety on Florida highways. The 2-day traffic law enforcement operation focused on interstates and other major state roads where commercial motor vehicle, speeding, and aggressive driving were prevalent. Nearly 4,000 citations were issued by FHP for various violations with nearly half issued for excessive speed.

Successful Rapid ID Pilot – FHP began a Rapid ID pilot project in July 2007 with 5 users, and since that time troopers have taken over 500 prints roadside. The “Rapid ID” system is a small fingerprint capture device used to validate a subject’s identity. The device has been instrumental in the arrest of several individuals. In one incident involving a suspect using a fraudulent ID, the trooper was able to fingerprint and positively identify the individual. The suspect was wanted and an arrest was made. Without the assistance of Rapid ID, the suspect most likely would have been released on a traffic violation. A $2.5 million grant request has been submitted to the Department of Homeland Security for 1,500 Rapid ID devices. FHP anticipates the release of those funds later this year.

FHP Receives Reaccreditation - FHP proudly received its third international reaccreditation on November 17 through the Commission on Accreditation for Law Enforcement Agencies, Inc. FHP was initially accredited in November 1996 and has maintained their accredited status since that time. Accreditation requires a periodic comprehensive review of every aspect of the Patrol. From management to supervision, field operations to support services, a team of independent law enforcement professionals scrutinizes every part of the Patrol’s operation. Law Enforcement Accreditation formally recognizes an agency’s compliance with standards of excellence set forth by law enforcement peers and identifies Florida Highway Patrol as a leader in the criminal justice community.

Driver License Service Improvements - The Department recently expanded its telephone appointment center to include four additional counties. When calling the local number, the customer’s call is automatically forwarded to the appointment center in Tallahassee with no toll charge to the customer. By moving these calls to the existing appointment center, driver license examiners have more time to assist customers. The appointment center currently receives calls from eleven counties: Brevard, Broward, Indian River, Leon, Martin, Miami-Dade, Okeechobee, Orange, Palm Beach, St. Lucie and Volusia. During this quarter the appointment center averaged nearly 7,500 calls per week.

National Teen Driver Safety Week - On October 16, the Florida Cabinet, by resolution, declared the third week of October as Florida Teen Driver Safety Week. The declaration follows a recent federal law which is intended to inspire dialogue within communities - among teenagers, parents, and civic leaders - about the causes of and solutions to crashes, the leading cause of death for young people in the U.S. Florida is home to more than 800,000 teen drivers and last year, more than 37,000 teenage drivers were involved in crashes. A press release was issued statewide outlining efforts to keep teen drivers safe and over a dozen news stories highlighted the issue. Additionally, the Department partnered with high schools in 37 events throughout the state to promote and educate teens on driving safety. A copy of the Florida’s Driver Guide for Teens and Parents can be found at http://www.hsmv.state.fl.us/teens/index.html
Customer Service Scorecard

The graph below is based on over 150,000 customer responses from the Department's online customer service survey and the ASK brochures received from driver license offices throughout the state during the period July 1 through December 31.

**Overall Service Score**

- **Excellent**
  - Phone: 4.8
  - Office: 4.7
  - Internet: 4.7
  - Email: 4.7
  - Mail: 4.5
  - Roadside: 3.9

- **Very Good**
  - Phone: 3.9

- **Good**
  - Phone: 1.0

- **Fair**
  - Phone: 1.0

- **Unacceptable**
  - Phone: 1.0

**Customer Reported Wait Times**

- Less than 15 minutes: 82%
- 15-30 minutes: 13%
- 31-60 minutes: >1%
- 61-90 minutes: 3%
- 91-120 minutes: 1%
- More than 120 minutes: 1%
- Time Not Specified: >1%
Driver License Offices Wait-Time Report

The Department is committed to enhancing service levels for our customers. We recognize that driver license office wait times are a key service indicator and one that the Department has given considerable attention. Based on a recent survey of 88 of our 94 driver license field offices, 89% of those offices had an average wait time of 15 minutes or less. The results of the timing survey, conducted by the Office of the Inspector General, also indicated that 57% of the offices surveyed (50 of 88) provided an improved customer experience by reducing wait times. The graph below provides a summary of the findings by region. The information from the Inspector General's timing report also supports the customer reported wait times shown on the previous page. While we are pleased with this report card, the Department continues to leverage its resources to provide the best possible service to our citizens and visitors.

**Performance Explanation**

1. Percent change in number of crashes investigated by FHP and Percent change in numbers of fraudulent motor vehicle titles identified and submitted to law enforcement – For this report, percent change was calculated based on the same period the previous fiscal year. The total number of crashes investigated by FHP for 2nd quarter FY 06-07, 61,136, and the first six months of FY 06-07, 122,498. The total number of fraudulent motor vehicle titles identified and submitted to law enforcement for 2nd quarter FY 06-07, 8, and for the first six months of FY 06-07, 18.

2. Number/percent of duty hours spent on crash investigations by community service officers - The Community Service Officer position description requires members spend 49% of their duty time investigating traffic crashes, which is consistent with actual performance. When the standard was established, there was no benchmark for the agency to use as a guideline. The standard will be reviewed and adjustments proposed to more accurately reflect performance. The 28 Community Service Officer positions worked a total of 23,171 duty hours during the first six months of this fiscal year.

3. Number/percent of duty hours spent on criminal investigations - The percentage of time dedicated to conducting criminal investigations has decreased due to an increase in professional compliance investigations. Currently, members assigned to the Bureau of Investigations investigate both criminal cases and professional compliance investigations.

4. Number/percent of duty hours spent on professional compliance investigations - Professional compliance investigations are driven by complaints received from citizens and detected policy violations. A reinforcement of the policy that requires any complaint of a policy violation be investigated has resulted in an increase in these investigations.

5. Number of mobile homes inspected - Due to the continued economic downturn in the manufactured home market nationally and in Florida, there is a corresponding decline in the number of mobile homes inspected within manufacturing plants. Members are meeting all mobile home inspection demands.

6. Number of rebuilt salvaged motor vehicles inspected for vehicle identification numbers and odometer readings - Performance is forecasted to be below the annual standard due to a decrease in consumer demand. Members are meeting all rebuilt salvaged motor vehicle inspection demands.
