

# Red Light Camera Summary Report

*Leaders in Service • Agents of Progress • Champions for Safety*

Fiscal Year 2016–2017

---

DECEMBER 29, 2017

## Introduction

Section 316.0083(4)(b), Florida Statutes, directs the Department of Highway Safety and Motor Vehicles (department) to provide a summary report on the use and operation of traffic infraction detectors (red light cameras) in Florida. The report “must include a review of information submitted to the department by the counties and municipalities and must describe the enhancement of the traffic safety and enforcement programs.”

Section 316.0083, Florida Statutes, describes the process for violations of traffic infraction detectors. A traffic infraction enforcement officer issues a Notice of Violation (NOV) to the violator within 30 days of the violation. The violator may pay the notice or contest the violation through an appeals process within 60 days. If the violator fails to pay or appeal the notice, a local jurisdiction issues a Uniform Traffic Citation (UTC) to the violator, with a copy to the Clerk of Court for adjudication.

## Part 1

### Survey Methodology

The department created an online survey to gather information and data from counties and municipalities (jurisdictions) responsible for the administration of red light cameras (RLC) during Fiscal Year (FY) 2016-2017. The 29-question survey included topics such as procedures, NOVs and program size, and covered activity that occurred from July 1, 2016, through June 30, 2017. As there is no statewide oversight of red light camera programs, the department relies on monies remitted to the Department of Revenue (DOR) to identify which jurisdictions potentially operated red light cameras during the reporting period. Similar to the previous FY report, jurisdictions were asked to complete a spreadsheet regarding camera and intersection locations and dates of operation. With this self-reported information, the department independently analyzed crash data related to red light camera intersections throughout the state.

Surveys were distributed to all jurisdictions who responded to previous red light camera surveys, and to those who remitted red light camera monies to the DOR during the reporting period. In addition, the Florida Sheriffs Association, the Florida Police Chiefs Association, the Florida League of Cities and the Florida Association of Counties aided in distributing surveys to their members.

Due to the impacts of Hurricane Irma, the department extended the survey from October 1 until October 27, 2017.

### Summary of Survey Responses

In total, 63 jurisdictions remitted monies to the DOR for red light camera penalties during FY 2016-2017 (see supplemental resources section). This report only reflects the jurisdictions that indicated red light cameras were operational during the reporting period (July 1, 2016 – June 30, 2017). A total of 54 jurisdictions are represented in this report including one jurisdiction that submitted a survey indicating that red light cameras were operational during the reporting period but did not remit monies to the DOR (reference Appendix E for a list of the 54 jurisdictions and their responses). Violations are sometimes paid late, which is why some jurisdictions remitted monies after the conclusion of their program, which accounts for the ten jurisdictions not represented.

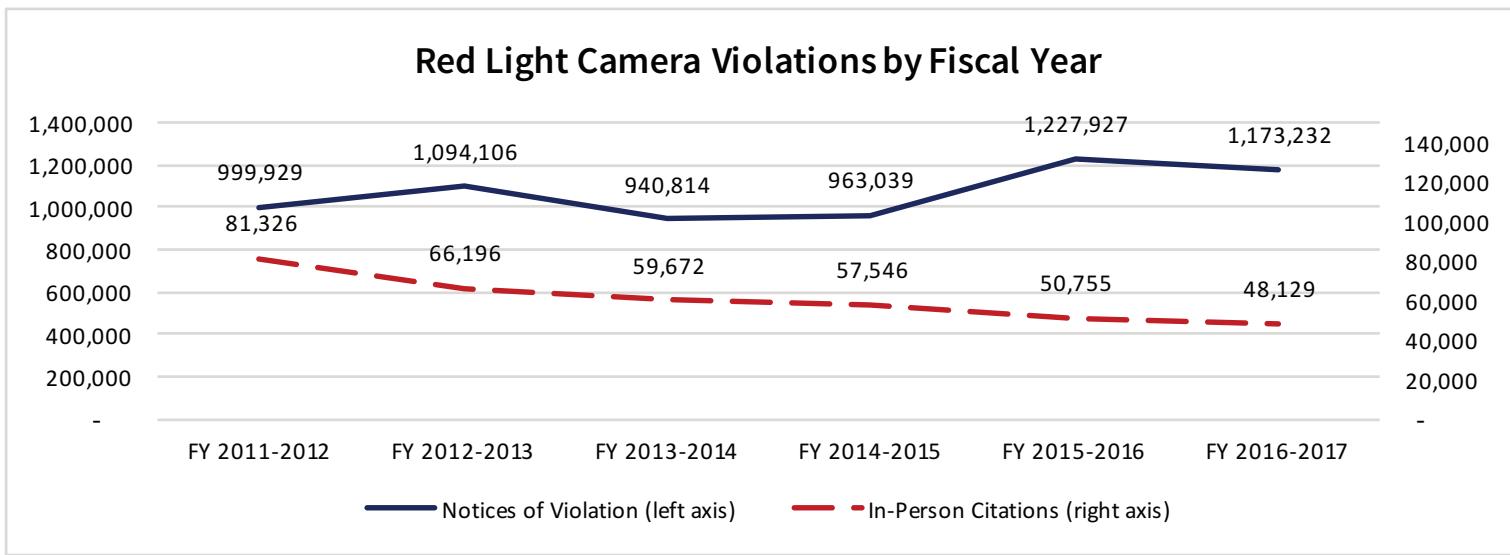

## Cameras and Intersections (Data as reported by local jurisdictions in RLC survey)

- 680 RLCs active as of July 1, 2016 (796 as of July 1, 2015)
  - Reduction of 42 cameras
  - 33 jurisdictions with no change in number of RLCs
  - 9 jurisdictions with increase in number of RLCs
  - 12 jurisdictions with decrease in number of RLCs
    - Six jurisdictions reduced number of active RLCs to zero during reporting period (July 1, 2016 – June 30, 2017).
- 439 intersections with active red light camera as of July 1, 2016 (478 as of July 1, 2015)
- 412 intersections with active red light camera as of June 30, 2017 (430 as of June 30, 2016)
  - Reduction of 27 intersections
  - 31 jurisdictions with no change in number of intersections with RLCs
  - 10 jurisdictions with increase in number of intersections with RLCs
  - 13 jurisdictions with decrease in number of intersections with RLCs

## Notices of Violation (Data as reported by local jurisdictions in RLC survey)

- 1,173,232 NOVs issued (*Availability of NOV status varied by jurisdiction. Thus, numbers do not add to total.*)
  - 704,232 paid
  - 8,462 contested and pending
  - 5,381 contested and dismissed
  - 14,852 contested and upheld
- In FY 2016-2017, 96,011 NOVs were issued to repeat RLC violators (150,659 reported in FY 2015-2016 report)

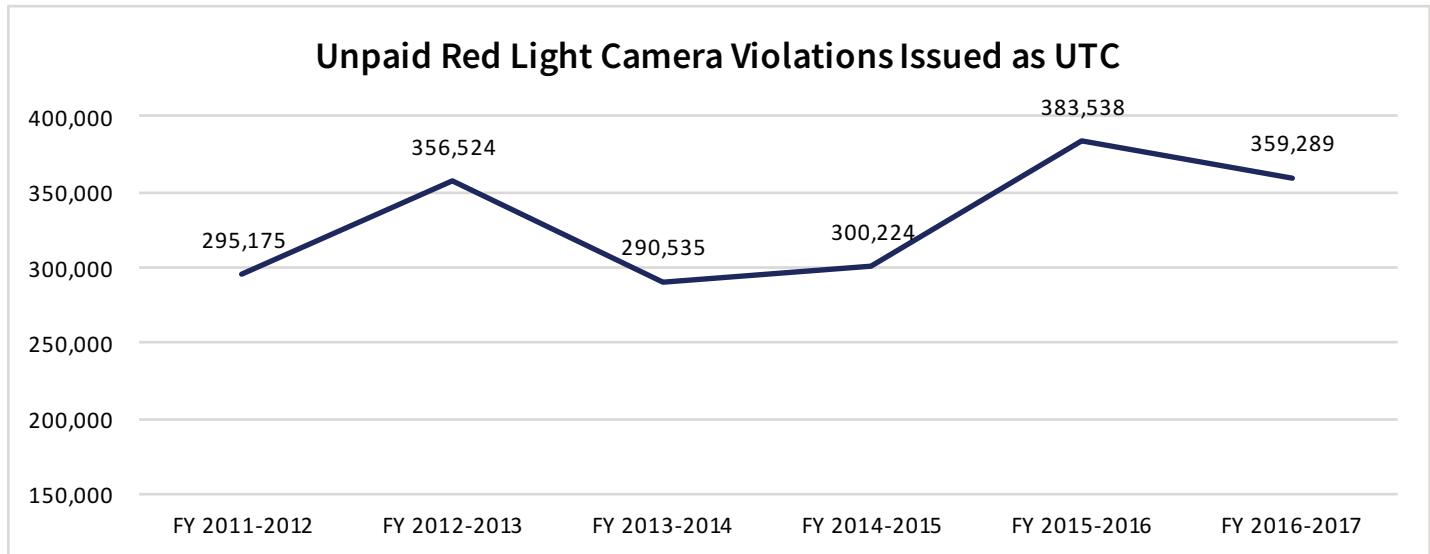

(Figure 1)

NOV data self-reported by jurisdictions. Citation data collected from department database as of November 7, 2017.

Figure 1 shows the number of NOVs issued for red light camera violations over the past six fiscal years (July 1 – June 30). The graph also depicts the number of citations for running a red light issued in-person by law enforcement. The number of NOVs issued for red light camera violations increased to its highest peak during the 2015-2016 fiscal year. The number of in-person citations reached its lowest point during the 2016-2017 fiscal year. Both NOVs and in-person citations fell by five percent during the last fiscal year (2016-2017). As previously stated, the department must rely on self-reported information for the number of NOVs issued each year and more than 400,000 NOVs from FY 2016-2017 have an unknown status. In-person citations issued by law enforcement are submitted by the local jurisdiction through their respective county clerk and those citations are then remitted to the department as required by statute.

(Figure 2)

*Citation data collected from department database as of November 7, 2017.*

Figure 2 shows the number of unpaid red light camera violations resulting in a UTC. Similar to the number of NOVs issued, the number of UTCs issued fell by more than six percent (6.32%) during FY 2016-2017.

## Personnel

Jurisdictions were requested to identify who reviews the camera images before issuing NOVs, who reviews contested NOVs and who ultimately issues UTCs. Personnel categories included law enforcement officer, non-sworn government employee, non-sworn contractor employee (vendor) and other. Figure 3 reflects responses.

(Figure 3)

Personnel	Review Camera Images	Review Contested Notices of Violation	Issue Uniform Traffic Citations
Law Enforcement Officer	45	42	44
Non-sworn Government Employee	24	17	18
Non-sworn Contractor Employee (vendor)	5	4	0
Other (see Appendix E )	4	12	5

*Note: Jurisdictions could select multiple options for each question so numbers do not sum to the total number of respondents.  
Data as reported by local jurisdictions in RLC survey.*

## Right-Hand Turns

Pursuant to section 316.0083, Florida Statutes:

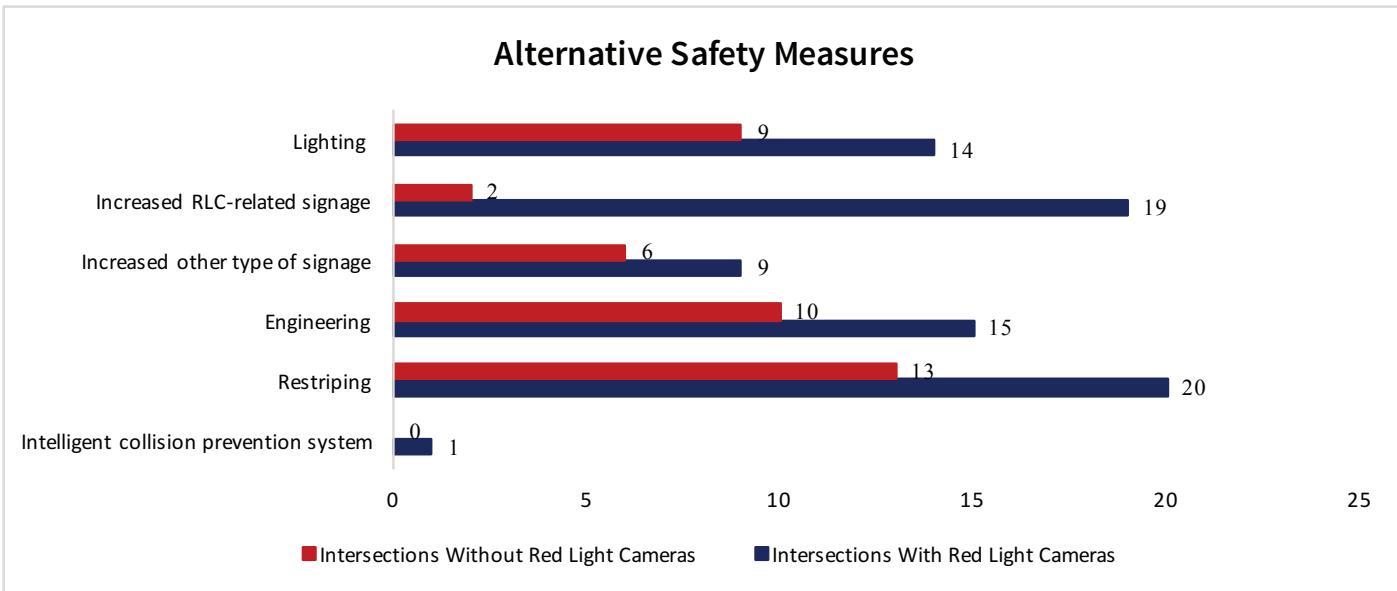

- A NOV and UTC may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible.
- A NOV and UTC may not be issued under this section if the driver of the vehicle came to a complete stop after crossing the stop line and before turning right if permissible at a red light, but failed to stop before crossing over the stop line or other point at which a stop is required.

The terms in this section of statute are left to the interpretation of each respective jurisdiction (see Appendix F for right turn definitions provided to the department). For FY 2016-2017, 59 percent (32 of 54) of the responding jurisdictions issued NOVs for persons making right turns on red signals. Eight jurisdictions indicated that they do not track the number of violations issued for right turns on red.

## Alternative Safety Measures

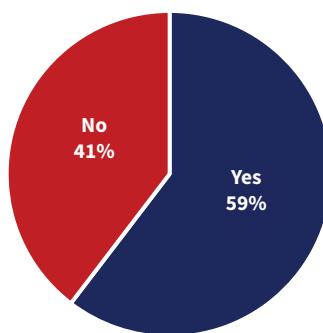

The department also requested what other actions jurisdictions had taken to improve safety measures at intersections during the reporting period. More than half (29 of 54) of the jurisdictions indicated they had implemented at least one action. The results of this question are shown below in Figure 5 (see Appendix E for other responses).

(Figure 5)

*Data as reported by local jurisdictions in RLC survey.*

Issue Violations for Right-Hand Turn

(Figure 4)

*Data as reported by local jurisdictions in RLC survey.*

## Other Survey Results (Data as reported by local jurisdictions in RLC survey)

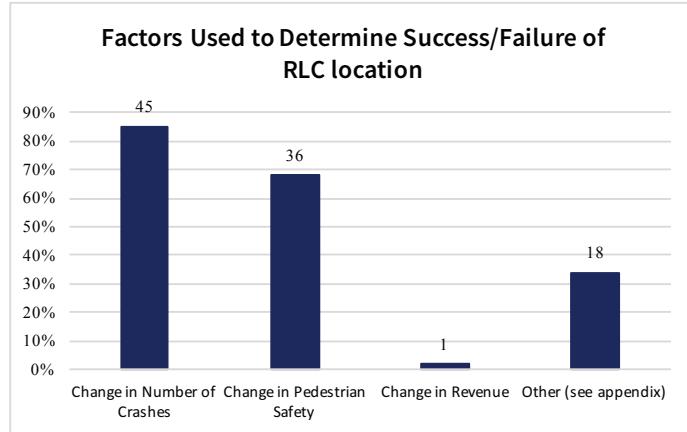

Approximately half of the jurisdictions (28 of 54) reported court cases have impacted their red light camera program. Twelve jurisdictions indicated they have conducted an independent red light camera analysis. Forty five jurisdictions responded they are continuing their program in FY 2017-2018. Forty-one jurisdictions responded they report crashes electronically, four report via paper, and nine submit both. Although some jurisdictions have suspended or terminated their programs, no jurisdictions indicated they moved the location of a red light camera during the reporting period.

(Figure 6)

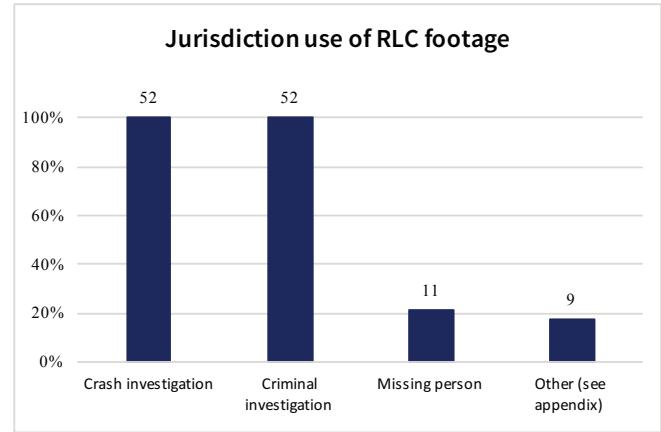

Red Light Camera Vendor	Number of Jurisdictions
American Traffic Solutions (ATS)	41
Redflex	5
Xerox	3
Gatso USA	3
Sensys America	2

Figure 7 shows factors used to determine the success or failure of red light camera locations as reported by jurisdictions. Figure 8 shows other uses of red light camera footage reported by jurisdictions.

(Figure 7)

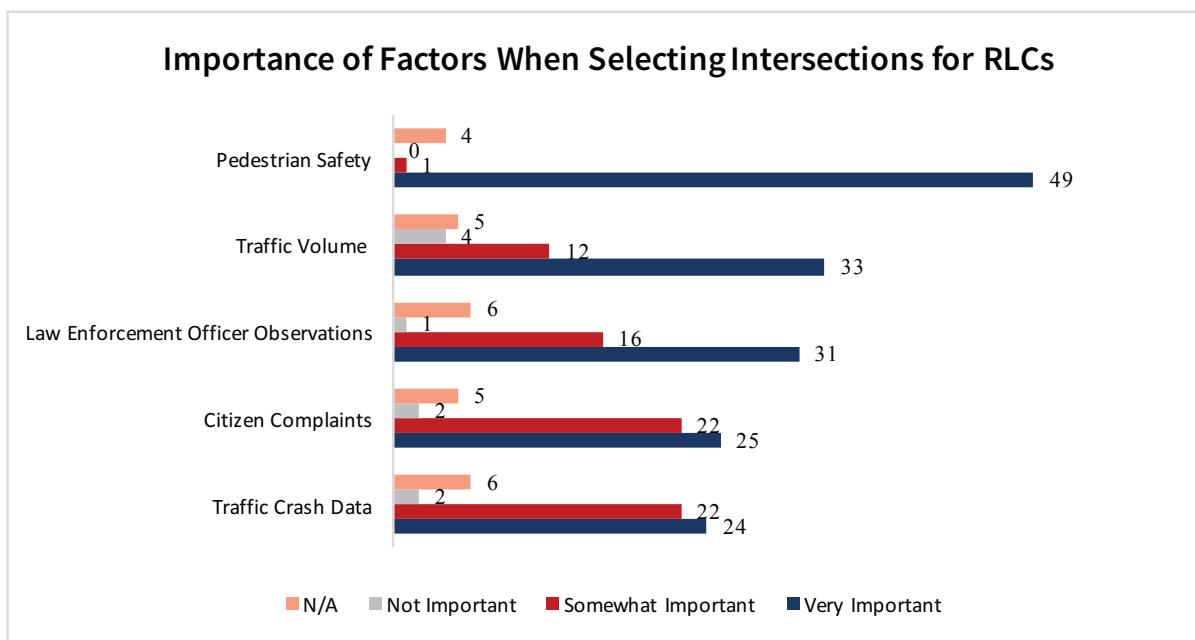

(Figure 8)

Jurisdictions were asked to rank the importance of various factors when selecting intersections to install red light cameras. The results are shown in Figure 9.

(Figure 9)

*Data as reported by local jurisdictions in RLC survey.*

## Part 2

### Crash Analysis

Similar to the previous fiscal year report, jurisdictions self-reported the dates of operation and locations of intersections with red light cameras. Intersections were selected to be included in the crash analysis based on their dates of operation, as there have been changes to the reporting of crash data within the last six years. Taking input from jurisdictions who operate red light camera programs, the department refined its methodology to only include crashes that occurred on or after July 1, 2012. Therefore, intersections were only included if the activation date was between January 2013 and April 2017, allowing at least six months before and after the date the camera was activated. Intersections from the City of Miami Springs were not included in the analysis because cameras were turned off and then back on, and the lapsed time was less than six months. Additionally, intersections from the City of Palatka were not included, as the department did not receive location information. In total, 144 intersections were included in the crash analysis from 25 jurisdictions.

Crashes occurring within 250 feet of the center of the intersection were analyzed before and after the installation of camera(s) at each intersection. Figure 10 shows the breakdown of crashes analyzed based on their distance from the center of the intersection.

(Figure 10)

Feet from Intersection	Number of Crashes	Percent of Total	Running Total
0	5,705	48.64%	48.64%
1-50	3,501	29.85%	78.49%
51-100	1,211	10.32%	88.81%
101-150	393	3.35%	92.16%
151-200	638	5.44%	97.60%
201-250	281	2.40%	100.00%
Grand Total	11,729	100.00%	

Measures were taken to exclude crashes that occurred anywhere other than the roadway, such as parking lots. The before and after periods used for analysis were unique to each intersection based on the dates of operation, with an equal number of days within each window. Crashes were broken down by manner of collision (angle or rear-end), injury severity, inclusion of a non-motorist (see Appendix D for definition), and whether the crash report indicated a driver ran a red light.

(Figure 11)

	Before RLC Installed	After RLC Installed	Percent Change
Total Crashes	5,571	6,158	10.54%
Angle Crashes	1,489	1,646	10.54%
Rear-End Crashes	4,082	4,512	10.53%
Crashes Involving Non-Motorists	54	50	-7.41%
Crashes Involving Running a Red Light	213	203	-4.69%
Possible Injury Crashes	1,056	1,144	8.33%
Non-Incapacitating Injury Crashes	438	408	-6.85%
Incapacitating Injury Crashes	153	191	24.68%
Fatal Crashes	6	9	

Data as provided by Signal Four Analytics using intersection location information reported by local jurisdictions.

Figure 11 shows the breakdown of crashes that occurred before and after the activation of red light cameras at intersections included in the analysis. Similar to last year, the department incorporated an algorithm to exclude crashes that occurred outside of the roadway. Reference Appendix A for a more detailed breakdown of crashes by reporting jurisdiction. Appendix B is specific to crashes where the officer indicated a driver ran a red light, and Appendix C is specific to crashes involving non-motorists.

In 2017, the department expanded its partnership with local jurisdictions to improve the completeness and accuracy of crash report data. The crash analysis should be put into context of the overall complexity of the issue at hand, as many factors may contribute to the change in number of crashes outlined in this report.

One such factor is the increase in vehicle miles traveled (VMT). The probability of a crash occurring increases as people drive more, and daily VMT in Florida increased 12.77 percent from calendar years 2012 to 2016 (see supplemental resources). Another factor is the fluctuation in crash reports with accurate location information (latitude and longitude). In order to analyze crashes that occurred at certain intersections, it is necessary to know both the location of the intersection and the location of the crashes. Intersection locations (latitude and longitude) were submitted along with the survey; however, latitude and longitude are not included in every crash report.

## Part 3

### Recommendations

The following recommendations would allow for more accurate reporting of information that cannot currently be tracked through existing systems.

1. Require jurisdictions to track camera information including location (GPS coordinates) and dates of operation.
2. Require jurisdictions to provide the name of the red light camera administrator, their email address and telephone number at the end of each state fiscal year.
3. To ensure the ability to reconcile NOVs issued with monies remitted and UTC counts, require jurisdictions that end their red light camera operations to maintain all data regarding the program for a minimum of two years.
4. Require jurisdictions to track the issuance of NOVs, including the status of those violations (paid, contested, issued as UTC).
5. Require jurisdictions to track the issuance of NOVs for right-hand turns.
6. Require jurisdictions to report alternative safety countermeasures taken prior to and after the installation of red light cameras.
7. In accordance with Florida Statutes, the department will continue to review and report on the status and trends of the use and operation of red light cameras. To determine the enhancement of traffic safety, the department recommends a more thorough analysis be conducted by an independent organization using appropriate local and state agency resources.
8. The department will collaborate with local jurisdictions operating red light camera programs to improve the data collection and reporting methodology associated with evaluation of the active programs across the state.
9. Create a standard for administering violations for right-hand turns on red signals. Define “careful and prudent manner” to allow for a uniform procedure statewide.

## Appendix D: Glossary of Terms

<b>Angle Crash</b>	A crash where two vehicles impact at an angle. For example, the left front of one vehicle impacts the side of another vehicle.
<b>Rear-End Crash</b>	A crash where the front of one vehicle impacts the back of another vehicle.
<b>Non-incapacitating Injury</b>	Any visible injuries such as bruises, abrasions, limping, etc.
<b>Incapacitating Injury</b>	Any visible signs of injury from a crash or person(s) who had to be carried from the scene.
<b>Fatal Injury</b>	Any injury that results in death within a 30 day period after the crash occurred.
<b>Non-Motorist</b>	Any person other than an occupant of a motor vehicle in transport. This includes pedestrians, occupants of other motor vehicles not in transport and occupants of transport vehicles other than motor vehicles.

## Florida Department of Highway Safety and Motor Vehicles

## Appendix E: Jurisdiction Responses to Survey

Name of Jurisdiction (City or County)	How many registration holds did your jurisdiction request as a result of RLC violations during the reporting period (July 1, 2016 - June 30, 2017)?	How does your jurisdiction submit crash data to the Department?	In order to identify the number of repeat offenders, please provide the number of distinct vehicle owners issued Notices of Violation for multiple red-light camera violations.	Have court cases impacted your red light camera program?
				Response
				Details
Apopka	429	All Electronically	1786	Yes Only to the extent that we've modified our practices to comply with the court cases.
Bal Harbour Village	0	All Electronically	89	Yes Our RLC program has been upheld
City of Aventura	155	All Electronically	1195	No The program was upheld by the court
City of Boynton Beach	687	All Electronically	4037	Yes City of Hollywood vs. Aren; City of Aventura vs Jimenez; City of Oldsmar vs Trinh; City of Boynton Beach vs. Boss
City of Bradenton	308	All Electronically	732	Yes Our camera program was ended by City Council for other reasons that have not been related to pending court cases.
City of Brooksville	0	All Electronically	Unknown	No Our camera program was ended by City Council for other reasons that have not been related to pending court cases.
City of Clearwater	159	All Electronically	Unknown	No All initial violations and UTC reviewed by Traffic Infraction Officer (non-sworn government employee)
City of Clewiston	Unknown	Both	57	No Drivers are more cautious
CITY OF CORAL GABLES	Unknown	All Electronically	60	Yes Each time a new ruling comes out, we make sure that our program follows all rulings and will not be affected.
City of Edgewood	14	All Electronically	4417	Yes Our program follows all rulings and will not be affected.
City of Florida City	0	All Electronically	3064	No Inaccurate media reports that the cameras are illegal.
City of Gulf Breeze	0	All Electronically	148	No Inaccurate media reports that the cameras are illegal.
City of Homestead	0	All Electronically	229	No Court decisions affect the policies and procedures of our program.
City of Maitland	0	All Electronically	313	Yes We have experienced more hearings due to the inaccurate media reports that the cameras are illegal.
City of Miami Gardens	3074	All Electronically	Unknown	No Changes in law, changing the process. Some tasks are redundant and take more time to complete.
City of Miami, Florida	1341	Both	20760	Yes Hollywood v. Aren & Aventura c. Jimenez
CITY OF NORTH MIAMI BEACH	0	All Electronically	1018	No Fourth District Court of Appeal Hollywood v. Aren at the time was unfavorable. Third District Court of Appeal City of Aventura vs. Luis Torres Jimenez in the Second District Court of Appeal Florida v. Trinh was both favorable to the program.
City of Ocoee	0	All Electronically	610	Yes Local hearings and county hearings.
City of Opa-locka	495	All Electronically	1442	Yes Changes in law, changing the process. Some tasks are redundant and take more time to complete.
City of Orlando	48	All Electronically	2158	Yes Fourth District Court of Appeal Hollywood v. Aren at the time was unfavorable. Third District Court of Appeal City of Aventura vs. Luis Torres Jimenez in the Second District Court of Appeal Florida v. Trinh was both favorable to the program.
City of Palm Coast	0	All Electronically	Unknown	Yes Cameras cause drivers to be more responsible.
City of Port Richey	0	Both	Unknown	No presently not issuing TTS's
City of Sunnyside	0	All Electronically	2694	Yes reference "safe and prudent" on right turns.
City of Sweetwater	10	All Electronically	44	Yes City of Hollywood vs. Aren case. City of Tamarac still has a case on appeal due to adverse ruling from county court hearing officer. There is one case on appeal by defendant due to local City hearing officer ruling. No adverse rulings from county court judges.
City of Tamarac	87	All Electronically	1068	Yes hearing officer ruling. No adverse rulings from county court judges.
City of Tampa	Unknown	All Electronically	5350	No

City of Ocoee	N/A
City of Opa-locka	
City of Palm Coast	Crash Data are very useful tools to support the improvement, implementation, and assessment of Red Light Camera devices which tend to reduce traffic crashes. The collection of traffic crash data aims at gaining a better understanding of traffic operational problems, misconceptions, and locating hazardous road sections, identifying risk factors, developing accurate diagnosis and remedial measures, and evaluating the effectiveness of Red Light Camera safety programs. In order to obtain an accurate informed verdict on the effectiveness of Red Light cameras, two things must be completed. The first question is: does the crash have anything to do with the red traffic signal. In order to find the answer to this question the officer's crash report narrative must be closely scrutinized. Only after the facts are obtained can we make an accurate determination of the crash type, i.e. rear-end collision, right-angle, sideswipe, etc. The second note is that we must have an accurate traffic count of the roadway. Increased ridership equals increased in crashes. The City of Orlando has recently created a Transportation Department where Orlando Stops/Red Light Cameras are now housed. The Transportation Department is working hand in hand with Orlando Stops and Orlando Police in an effort to improve safety throughout the city. Funding received from the Orlando Stops Safety Program will go to Transportation safety projects throughout the city.
City of Port Richey	For question 13) Repeat offenders One Notice 8,632 Two Notices 304 Three Notices 28

## Appendix E: Jurisdiction Responses to Survey

Name of Jurisdiction (City or County)	How many registration holds did your jurisdiction request as a result of RLC violations during the reporting period (July 1, 2016 - June 30, 2017)?	How does your jurisdiction submit crash data to the Department?	In order to identify the number of repeat offenders, please provide the number of distinct vehicle owners issued Notices of Violation for multiple red-light camera violations.	Have court cases impacted your red light camera program?
				Response
				Details
City of West Park	0	All Electronically	290	Yes Since that ruling, the court has not been hearing Red Light Camera Cases.
City of Winter Park	0	All Electronically	1138	No No significant change in violations.
Clermont	Unknown	Both	Unknown	No
Cutter Bay		All Electronically	Unknown	No
Green Cove Springs	49	All Paper	444	Yes Yes, City of Hollywood v. Eric Aren has caused a lot of unnecessary redundant and time consuming workload!
GroveLand Police Department	Unknown	Both	Unknown	Yes
Haines City Police Department	Unknown	Both	894	No
Hillsborough County Sheriff's Office	234	All Electronically	2579	No
Jacksonville, FL	0	All Electronically	7551	No
Lakeland	596	All Electronically	1994	Yes Our agency reviews and approves violations following the guidelines from the courts
Manatee County Government	15	Both	5637	No
Miami Beach	101	All Electronically	10152	No Court Cases have not impacted our program.
Miami Springs	76	All Electronically	3751	No
Milton Police, Milton Fl	4	All Paper	27	No
New Port Richey	Unknown	Both	775	No
Orange County	21	Both	4226	Yes
Osceola County	0	All Electronically	248	No
Palm Beach	0	All Electronically	368	No
Sarasota	153	All Electronically	1291	Yes Added second review of violation before a UTC is issued.
South Miami	0	All Electronically	296	No The South Miami Police Department held a special hearing within Miami-Dade County Court. Our traffic program was found within full compliance of the law.
Town of Davie	0	All Electronically	140	Yes Since the Aren vs. Hollywood ruling by the 4th DCA, courts in Broward county are not hearing red light camera cases pending review by the Florida Supreme Court.
Town of Medley	0	All Paper	70	Yes The Aren vs. Hollywood ruling resulted in all cases being continued pending a ruling from the Chief County Court Judge. All cases are now proceeding.
Town of Orange Park (Clay)	12	All Paper	438	No In-House Magistrate Red Light Camera (RLC)
Town of Surfside	0	All Electronically	544	Yes Notice of Violation (NOV) Hearings were suspended for a period of time pending the outcome of the court case involving the City of Aventura, Florida Appellate Court Decision. The RLC NOV Hearings have resumed.
Village of Key Biscayne	0	All Electronically	42	No
Village of Pinecrest	26	All Electronically	266	Yes UTC's were stayed by the Clerk of the court while motions and appeals were heard. On May 5, 2017 Judge Steven Leffman ordered and adjuged that the Clerk shall begin setting for trial all red light camera citations previously, and currently issued by the VOP PD
West Miami Police	0	All Electronically	420	Yes

West Miami Police	

## Appendix F: Right Turn Definitions

<b>Name of Jurisdiction (City or County)</b>	Section 316.0083(1)(a), Florida Statutes, provides that, "A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permitted." Please provide the definition used by your respective jurisdiction when determining if a violation should be issued. (no character limit on this answer)
Apopka	Having regard for angle, width, grade, curves, corners, vehicles, pedestrians and all other attendant circumstances, including but not limited to speed and visual obstructions, so as not to endanger the life, limb, or property of any person. Note: Damage or injury does not have to occur in order for an event to be considered NOT careful and prudent.
Bal Harbour Village	Did the vehicle slow down and did the vehicle/ driver yield to pedestrians?
City of Aventura	Vehicle stops before, at or after the stop bar before turning right on a red signal
City of Bradenton	Careful and prudent manner would be coming to a complete stop, ensuring that the driver of the vehicle had enough time to look at oncoming traffic to determine if it was clear to proceed
City of Brooksville	Traffic crash program was voted out by majority of Brooksville City Council.
CITY OF CORAL GABLES	VEHICLE SPEED, TRAFFIC, MANNER OF RIGHT TURN AND PEDESTRIANS
City of Florida City	A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible.
City of Homestead	Reviewing Police Officer makes determination, officers are instructed to only issue notices of violation if had they been present at the
City of Maitland	A motorist can make a turn in a "careful and prudent manner" after coming to a complete stop pursuant to the directives of Florida State Statute 316.075. However, our officers use their discretion when reviewing the violations and do not issue violations to anyone going under 16mph during a right hand turn unless aggravating circumstances exist.
City of Miami Gardens	For purposes of administering this section, the department, a county, or a municipality may authorize a traffic infraction enforcement officer under s. 316.540 to issue a traffic citation for a violation of s. 316.074(1) or s. 316.075(1)(c1). A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible. A notice of violation and a traffic citation may not be issued under this section if the driver of the vehicle came to a complete stop after crossing the stop line and before turning right if permissible at a red light, but failed to stop before crossing over the stop line or other point at which a stop is required.
City of Ocoee	Same as all Florida State Statute Language
City of Opa-locka	Traffic Volume, Pedestrians, Speed
City of Palm Coast	Maximum safe speeds per FDOT green book
City of Sunrise	A right turn on red conducted at a speed greater than 15 MPH or failed to yield right of way to pedestrian or vehicle
City of Sweetwater	"A notice of violation and a traffic citation may not be issued for failure to stop at a red light if the driver is making a right-hand turn in a careful and prudent manner at an intersection where right-hand turns are permissible."
City of Tamarac	Careful and prudent manner does not apply. Right turns on red are only enforced at the location which is posted "No Turn on Red"
City of Tampa	Turn is made at reasonable speed and does not interfere with other vehicle or pedestrian traffic
City of Winter Park	You can make a right hand turn in a "careful and prudent manner" after coming to a complete stop pursuant to the directives of Florida Statute.
Clermont	Careful and prudent right hand turn
Green Cove Springs	If there is no apparent effort to slow down or stop and the speed exceeds a minimum of 15 mph
Hillsborough County Sheriff's Office	The HCSO maintains a 15 mph threshold for right on red violations and only has two intersections with right turn enforcement.
Lakeland	Violation based on speed, weather, road conditions, and pedestrian traffic
Manatee County Government	The camera footage is viewed by a sworn law enforcement officer employed by the Manatee County Sheriff's Office. If the deputy reviewing the footage feels they would ticket the violation if they were in person at the light then they make the determination to ticket the violation from the camera.
Miami Beach	Careful and Prudent means the driver is aware of his environment and is driving in a responsible manner, i.e. speed, pedestrians, the right of way of approaching vehicles, etc.
Miami Springs	The vehicle should be traveling LESS than 15 mph. Drivers must yield the right of way to other vehicles and to pedestrians attempting to cross the street in the crosswalk.
New Port Richey	The totality of the circumstances to include speed of the vehicle, traffic volume, visibility, road conditions, etc.
Orange County	Only enforce right on red at locations that have a No Turn On Red sign when lit if vehicle does not stop within their turn
Osceola County	Traffic infraction officers make a determination just as a deputy would — based on the individual circumstances of that turn
Town of Orange Park (Clay)	At one particular intersection where the right on red is enforced, the violator has to drive into the bicycle lane, passing other vehicles on the right, fail to stop then make a right hand turn, endangering other traffic and/or pedestrians.
Town of Surfside	If there is a pedestrian in the crosswalk, at time of incident occurrence, that posed a risk/threat to the pedestrian.
Village of Key Biscayne	We use the same definition as Florida State Statute 316.0083(1)(a).
West Miami Police	Careful and prudent manner
