## **Source of Data**

## **2005 Florida Traffic Crash Statistics**

The information contained in this Traffic Crash Statistics booklet is extracted from law enforcement agency long-form reports of traffic crashes. A law enforcement officer must submit a long-form crash report when investigating:

- Motor vehicle crashes resulting in death or personal injury, or
- Motor vehicle crashes in which one or more of the following conditions occur:
  - Leaving the scene involving damage to an attended vehicle or property (Section 316.061 (1), F.S.), or
  - Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with an unlawful blood alcohol level (Section 316.193, F.S.).

An investigating officer may report other traffic crashes on the long-form crash report. In particular, applicable statutes specify an officer's discretion to submit a long-form report in crashes where a vehicle is rendered inoperable to the degree that a wrecker is required to remove it from traffic.

Statutory revisions in 1983 and 1989 reduced the number of non-injury crashes required to be reported to the Department. Any presentation of historical data that includes such crashes, such total traffic crash counts, will reflect these changes. Data on traffic crashes involving death, injury, or other criteria for law enforcement long-form reports as outlined above are not affected.

## Definition of Terms

## 2005 Florida Traffic Crash Statistics

The following terms are defined as they apply to the crash data presented in this publication. These definitions may differ from legal or other uses of the same terms.

<b>Alcohol-related traffic crash</b>	A crash involving a driver and/or pedestrian for whom alcohol use was reported (does not presume intoxication).
<b>Bicycle</b>	A vehicle propelled solely by human power or a motorized bicycle propelled by a combination of human power and an electric helper motor rated at 200 watts or less (this term does not include a vehicle with a seat height less than 26 inches from the ground when the seat is adjusted to its highest position, or a scooter or similar device).
<b>Bicyclist</b>	The driver of a bicycle. A passenger on a bicycle is considered a vehicle passenger.
<b>Commercial motor vehicle (CMV)</b>	Means any motor vehicle or motor vehicle combination used on the streets or highways which: 1) has a gross, declared, or actual weight rating of 26,001 pounds or more; 2) is designed to transport more than 15 persons, including the driver; or 3) is transporting hazardous materials and is required to be placarded.
<b>Driver</b>	Unless otherwise indicated, the operator of a motor vehicle or bicycle. Driver data typically exclude uninjured persons presumed to have been operating hit-and-run, phantom, or properly parked vehicles.
<b>Drinking driver</b>	Indicates investigating officer's judgment on whether a driver was using alcohol. Codes include alcohol-under influence, alcohol and drugs-under influence, and had been drinking.
<b>Fatal traffic crash</b>	A traffic crash that results in one or more fatalities within thirty days of occurrence.
<b>Harmful events</b>	Identifies the first and subsequent harmful events for each vehicle in a traffic crash.
<b>Injury</b>	Hurt, damage, or loss sustained by a person as a result of a traffic crash. Definitions for the various injury levels are as follows:
<i>Possible injury</i>	<i>No visible signs of injury but complaint of pain or momentary unconsciousness.</i>

## Definition of Terms

(Continued)

## 2005 Florida Traffic Crash Statistics

<i>Non-incapacitating injury</i>	<i>Any visible injuries such as bruises, abrasions, limping, etc.</i>
<i>Incapacitating injury</i>	<i>Any visible signs of injury from a crash and person(s) had to be carried from the scene.</i>
<i>Total injury</i>	<i>The sum of possible, non-incapacitating, and incapacitating injuries.</i>
<b>Injury crash</b>	A non-fatal traffic crash that results in one or more injuries.
<b>Long form</b>	Refers to a crash report prepared by a law enforcement officer where there has been a crash resulting in bodily injury, the death of a person or where a specified criminal offense has been committed.
<b>Moped</b>	A motor-powered cycle with a pedal-activated motor and a maximum of two brake horsepower.
<b>Motor vehicle</b>	Any motorized vehicle not operating on rails.
<b>Motorcycle</b>	A motor vehicle, with a seat or saddle for the driver's use, traveling with no more than three wheels in contact with the ground, excluding a tractor or a moped.
<b>Motorcyclist</b>	The driver of a motorcycle. A passenger on a motorcycle is considered a vehicle passenger.
<b>Short form</b>	Refers to a crash report in which the threshold of the long form does not apply. Therefore, a long form report is not prepared. In crashes where apparent damage is less than \$500, the law enforcement officer shall provide each party involved in the crash a short form prescribed by the state, to be completed by each party of the parties.
<b>Traffic crash</b>	A crash involving at least one motor vehicle on a roadway that is open to the public.
<b>Traffic fatality</b>	The death of a person as a direct result of a traffic crash within thirty days of the crash occurrence.
<b>Vehicle and/or property damage only crash</b>	Loss of all or part of an individual's vehicle and/or property resulting from a traffic crash not involving injury to a person.
<b>Vehicle occupants</b>	Drivers and passengers of automobiles, vans, trucks, buses, and motor homes.

\* This table lists the vehicle types and the number of vehicles within each type, that were involved in crashes, by type of crash. For clarification purposes, there were 5,011 vehicles involved in fatal crashes, not 5,011 fatal crashes or fatalities. For example, If one passenger van and one motorcycle were in the same fatal crash, then one passenger van is counted in the 319 passenger vans in fatal crashes and one motorcycle is counted in the 498 motorcycles in fatal crashes. It does not mean 319 people were killed in passenger vans and 498 people were killed on motorcycles.
