

# Florida Traffic Crash Facts Annual Report 2021

## Important Information, Please Read

Please note, while reviewing the 2021 Traffic Crash Facts annual report, the statistics presented in this document are subject to change as new and updated crash reports may be received after the closeout date of December 19, 2022. Information in the Florida Traffic Crash Statistics Summary may not reflect the same totals as additional sub-tables throughout the document. This is due to the nature of crash reporting and fields that can be reported with one or many selections. For example, a Non-Motorist such as a Bicyclist can be reported with up to two separate Safety Equipment selections. This may increase the number of reported injuries and fatalities when looking at a specific Safety Equipment value.

The information contained in this Traffic Crash Facts annual report is extracted from law enforcement agency reports of traffic crashes in which a motor vehicle is involved, and which meets the following criteria pursuant to [section 316.066](#) of the Florida Statutes:

- Motor vehicle crashes resulting in death or personal injury, or any indication or complaints of pain or discomfort, by any of the parties or passengers involved in the crash; or
- Motor vehicle crashes in which one or more of the following conditions occur:
  - Leaving the scene of a crash involving damage to an attended vehicle or property according to [section 316.061\(1\)](#) of the Florida Statutes;
  - Driving while under the influence of alcoholic beverages, chemical substances or controlled substances, or with an unlawful blood alcohol level or breath alcohol level according to [section 316.193](#) of the Florida Statutes;
  - A vehicle was rendered inoperable to a degree that required a wrecker to remove it from the scene of the crash; or
  - Involved a commercial motor vehicle.

An investigating officer may report any other traffic crashes on the long-form crash report. However, only those crashes that meet the criteria above, which are commonly referred to as 'codeable', are included in this report.

Because a single crash event can involve multiple drivers, column totals in this table may differ from the actual totals.

For a true count of fatalities and injuries, refer to the summary totals starting on page 9.
