MOTORIST MODERNIZATION ADVISORY BOARD PHASE I

Monthly Meeting Minutes

Kirkman Building Conference Room B-203

May 8, 2018

1 to 2 p.m.

WELCOME AND INTRODUCTIONS

- The meeting was called to order at 1:01 p.m. Ms. Kristin Green began the meeting by welcoming the attendees, and proceeded with the roll call of board members.

Advisory Board members present included:

- Deb Roby
 - Ed Broyles
 - Pace Callaway
 - April Edwards
 - Lisa Cullen (via phone)
 - Kelley Scott
- Additional DHSMV members present included Terrence Samuel, Kristin Green, Koral Griggs, Scott Tomaszewski, Chad Hutchinson, Laura Freeman, Sonia Nelson, Aundrea Andrades, Catherine Thomas, Felecia Ford, Janis Timmons, Cheryl Dent, Judy Johnson and Jessica Espinoza.
 - Visitors included Aylene Calvo and Colin Stephens from Ernst & Young, Scott Morgan, Joseph Weldon from Accenture, Jonathan Sanford from Legal, Beth Frady from Communications, Beth Allman from FCCC and two media members from WFSU/The Florida Channel.

REVIEW AND APPROVAL OF THE LAST MEETING MINUTES

- Ms. Koral Griggs reviewed the meeting minutes from April 10, 2018. No corrections or comments were identified. A motion to approve the minutes was accepted by the board members and the April 10, 2018, meeting minutes were approved.

IV&V UPDATE

- Aylene Calvo presented the March 2018 report. The program is within the established performance thresholds and the overall risk state is green. The schedule performance index was at .987. There were 29 out of 3,036 late tasks, which was slightly higher than the 22 late tasks from last month. The cost performance index was at 1.003. The program completion date was forecasted to be 17.9 days late. The schedule quality score was at 94.5.

STAKEHOLDER OUTREACH

- Mr. Terrence Samuel and other team members attended the IT Coalition Meeting on May 3, 2018, where Phase I and II were discussed. The team presented an overall update and answered any questions regarding the renewal notification project and structural testing. Mr. Samuel stated Mr. Chad Hutchinson presented an overview of the architectural testing at the meeting.
 - Mr. Hutchinson stated he also presented an update on changes and refinements made on test data management within the past year.
- Ms. Jessica Espinoza stated the team had a Phase I DL focus group meeting where a demo was performed and the renewal DL transaction was displayed. The team received positive feedback overall.

POLICY AND DECISION REVIEW

- POR31 – Express Shipping – Ms. Judy Johnson stated the team was waiting on a response from a current vendor to see if they could provide feedback on how other jurisdictions were handling the workflow with stuffing express shipping envelopes. The team requested to discuss with the ESC whether we can defer this to Phase II, since there will be a legislation change to be able to charge the fees for express shipping.
- FR02 – Rolling out the insurance companies XML onboarding as a "Big Bang" approach or a "Staggered" approach – Ms. Catherine Thomas stated the team was continuing to schedule insurance companies for structural testing cycle periods. 179 insurance companies were signed up, while 158 were still not signed up. The Florida Office of Insurance Regulation has decided not to send out a blast memorandum to all insurance companies, but will send an email targeting the specific companies that have not responded and have not registered for structural testing. Ms. Thomas stated three OPS staff have started, with one still in the onboarding process.
 - Mr. Scott Tomaszewski added the team reached out to insurance companies to ensure they start developing ahead of signing up for structural testing. He stated testing will begin in June and July 2018.
- ENTP01 – Enterprise – Ms. Judy Johnson stated the team met with FDLE on April 13, 2018, to review proposed Phase I requirements that would impact their business. The team was waiting to hear back on who will provide the sign-off on this from FDLE.
- FR03 – FR – Ms. Thomas stated the team was looking for a decision on whether the insurance companies will need to do a full reload for the Go-Live or just use their Book of Business to clean up their records. The team recommended doing a full reload prior to Go-Live. Ms. Thomas stated if we use their Book of Business, we would lose history and possibly Financial Responsibility cases, which would cause a loss in revenue.

LEGAL OPINION REVIEW

- No legal opinion review was discussed.

FINANCIAL REVIEW

- Ms. Janis Timmons stated we received all funding for the 2017 – 2018 and 2018 – 2019 years. The budget is \$9.8 million and the actuals are \$6.7 million. We expended 80 percent on contracted services, 80 percent on IV&V and the OCO is fully expended for this fiscal year. The budget to actual variance for this fiscal year is approximately .01 percent. \$975,067 was expended in April, compared to the \$969,940, which was originally budgeted. This was primarily due to the amount of overtime worked. The remaining funds are \$2.1 million.

CHANGE REQUEST REVIEWS

- Mr. Terrence Samuel updated the Board members after discussing with ESC, we will begin focusing and categorizing critical change requests to the functionality of the new system. Mr. Samuel announced ESC meets twice a month now.
- Ms. Kristin Green stated three of the Level III change requests were approved by the ESC, but due to time constraints they were not brought to Advisory Board prior to.
- CR111 – Supergroup User Guide Development Schedule Adjustment – Mr. Scott Tomaszewski stated this request was to align development and content collection one milestone behind the Application development and testing. This change request was approved by the ESC.

- CR112 – Informatica – Ms. Cheryl Dent stated this change request was to clarify additional Informatica portions of the schedule and align planned activities for the November Go-Live and MVRN Go-Live. This change request was approved by the ESC.
- CR113 – Enterprise Testing – Ms. Kristin Green stated this change request was to detail activities for Enterprise testing for Phase I Go-Live efforts. Various updates were made to the schedule and various testing tasks were incorporated. This change request was approved by the ESC.
- CR114 – Archive DL Batch Transcripts – Mr. Joe Weldon stated this change request is related to the DL Batch Transcript refinement to archive the original stories. The current batch transcript process was being changed to use the new webservice. There was no change in the hours and new stories and rules were created. There were no questions by the Board and the change request was motioned for approval.
- CR115 – Financial Responsibility – Clearance and Action Code Cleanup – Mr. Scott Tomaszewski stated the Financial Responsibility clearance changes performed earlier this year did not address all administrative clearances needs and action codes to maintain sanctions associated with records. This change request would include remaining work items involved with that process. The same schedule would remain. An additional 540 hours were identified. The team would identify any remaining stories that need to be lowered for this work to be completed. There was no known impact on LDO. There were no questions from the Board members and the change request was motioned for approval.
- Low Level Change Request PMCR-442 – Mr. Joe Weldon stated this change request was approved as an emergency request. Mr. Weldon stated the request changed the process for determining eligibility for clearing sanctions. The team collapsed three stories into one. There were no further questions on this change request.

PROJECT UPDATES

- DL Issuance – Mr. Joe Weldon stated the team was in Milestone H, which ends on May 30, 2018. The team was working on sanction clearance and clearance-only transactions, as well as six change requests previously approved by the Board members. According to the Traffic Report, the team was red for business actions and yellow for development and testing in the milestone. Mr. Weldon stated the Policy and Procedure team will be on site from May 15 – 17, 2018. That team completed their Milestone F functionality. The DL Issuance team will continue to perform several demos for the Policy and Procedure Team.
 - Risk 17 – Mr. Weldon stated this risk involved Idemia making updates to their process for card design to handle the new changes and restrictions. The work would be completed sometime in June.
 - Issue 39 – The team was short two developers. Mr. Weldon stated one position had been filled and they are working to fill the other position.
 - Change request pending – Mr. Weldon stated this change request was related to upgrading VLS 3.0 to a new version.
- Renewal Notification – Ms. Sonia Nelson stated the team was working to complete the HIP Sprint, which ended in February. The team was continuing to work on the Spanish translations and changes to the DL renewal notices. The team was still performing renewal vendor structural testing scheduled to complete by June 22. Palm Beach County, Manatee County and Grant Street finished testing. Southwest Direct, Marion County and Pasco County were still testing. Lee County, Pinellas County, Direct Mail, Point and Pay, Cathedral Corporation and TC Delivers were scheduled to start soon. The team was also working on performance testing in the STAGE environment, which should be completed at the end of the week. The team had no new risks or issues to report.
- CDLIS/CP – Ms. Sonia Nelson stated the team was working in Milestone E, Sprints 23 and 24. The team was behind for this sprint. The team was working on an interlock device for installation, court ordered non-DUI interlock device and printing for Florida citations for out-of-state drivers. The Traffic

Light Report indicated business actions were green, development for Citation Processing was red and green for CDLIS, testing was red for Citation Processing and green for CDLIS and technical debt was green for both. For the milestone, the team was green for business actions, yellow for development and testing and green for technical debt.

- Informatica – Ms. Cheryl Dent stated the team had completed development for eight modules related to data mappings. Ms. Dent stated that development of the modules was completed by April 30, however, the current sprint was red because testing had not been completed. Due to environmental issues, testing had been delayed; therefore, not completed yet. There were no more sprints left for the team. The team was waiting on the CONV environment to be set up with the Motorist Maintenance Applications to complete testing. The team had one change request to realign tasks on the schedule.
- MM/FR – Mr. Scott Tomaszewski stated the team was working in Milestone G, Sprint 24 and the HIP Sprint. The team was working on change stories related to handling system bypass, special features, quick adds, inventory and AAMVA features. Financial Responsibility was on hiatus for the current sprint. The Traffic Report for Motorist Maintenance on Sprint 24 indicated business actions were red, technical debt was green, developers were red and testers were red. The Traffic Report for the HIP Sprint indicated business actions were red, developers were red and testers were red. The Ascendant Commercial Insurance Incorporated Company was scheduled to start structural testing on April 30, but did not occur. The team had a meeting on May 4, to ensure these companies develop prior to scheduling structural testing.
 - Closed Risk 19 – Verification to reload file code and how it would handle multiple submissions – Mr. Tomaszewski stated at the last Advisory Board meeting, it was discussed to take the reload file, which was already modernized and bring it over into our code base; however, the team found issues with production. Mr. Tomaszewski stated there was still a question on how often companies would be able to run the reload.
 - Issue 10 – Delays in conducting backlog refinement meetings impacting sprint commitment – Mr. Tomaszewski stated this issue was more aligned with the quality of requirements versus the number of meetings. Mr. Tomaszewski stated the key is to engage the right subject matter experts who know the role of Motorist Maintenance and contributed to the requirements, and obtain their input prior to development and testing. This issue will be closed and a special issue will be opened for the requirement quality.
- MyDMV Portal – Ms. Aundrea Andrades stated the team was in Milestone F. The team closed Sprint 26 this week and Sprint 27 ended today. The team was working on BAR ORION stories, sanctions and change request 82. The developers were red on the Traffic Light Report due to them being over capacity for Sprint 27. The team's committed and approved stories will be moved over into the HIP Sprint. Testers were also red due to the development being behind. The project was green overall for the milestone. The team performed a demo for Ms. Diana Vaughn resulting in some change requests. The team discussed automating and certifying the print of driver license records requests via the Portal, a guest log-in and minor verbiage changes to the screens after the demo was performed.
- Mr. Terrence Samuel discussed staying on task with various structural testing, AAMVA testing, etc. Mr. Samuel discussed deploying the code out to Tax Collector offices soon, so they can start using the system as soon as possible and report any feedback. Mr. Samuel stated the teams are still working with insurance companies and renewal vendors, and would continue to invite new vendors to come meet with us.
 - Ms. Lisa Cullen stressed we should not let a Go-Live go into November for the Tax Collectors.
 - Mr. Terrence Samuel agreed we would not want the Go-Live to go into November.
 - Ms. Cullen stated meetings could be arranged with the various counties to discuss using the new system if needed.
 - Mr. Samuel stated we would keep those meetings in mind.

COMMUNICATION UPDATE

- There was no communication update to present.

Q&A

- There were no questions or concerns from members present.

 - ▶ The amount of time the project is behind schedule is increasing

Overall risk state and trending

Overall IV&V ratings summary

- This chart shows a summary of the IV&V cube facet ratings (red, amber, green and gray), and open deficiencies.
- Facet risk rating totals are as follows:
 - Red (critical issues): 0
 - Amber (issues): 0
 - Green (no issues): 25
 - Gray (not evaluated): 2
- Open deficiencies: 0
- Conclusions:
 - The MM Program Team has satisfactorily addressed all deficiencies identified by the IV&V Team.

Status of key deficiency recommendations

Overall performance

- This chart shows the SPI and CPI plotted as points against the tolerance ranges set up for the project.
- Summary:
 - Schedule and cost performance are within established thresholds.
- Conclusions:
 - The Program is currently on schedule and on budget.

- ▶ Green area indicates within tolerance of +/- 10% for both SPI and CPI.
- ▶ Amber area indicates review is required and corrective actions may be necessary.

- ▶ Red area indicates out-of-tolerance and corrective actions are necessary.

Overall performance (continued)

- This chart shows the cumulative planned value (PV) and earned value (EV) for the project.
- Summary:
 - Total EV is less than PV, indicating there is scheduled work that is not being completed as scheduled.
 - The total amount of work not completed as scheduled is 3,960.4 hours.
- Conclusions:
 - The Program is behind schedule.

- ▶ Blue area indicates the cumulative PV as of the current reporting period.
- ▶ Grey area indicates the cumulative EV as of the current reporting period.

- ▶ PV is the work scheduled to be accomplished.
- ▶ EV is the value of the work actually performed.

Overall performance (continued)

- This chart shows the percent complete for duration and work for the project.
- Summary:
 - Duration and work complete has been consistent since the beginning of the project
 - The modification of the schedule due to CR 68 (Informatica) introduced a large number of long duration activities with little work, greatly impacting percent duration complete.
 - The modification of the schedule due to CR 79 (detailed Informatica tasks) reduced the number of long duration activities.
- Conclusions:
 - None.

- ▶ Blue line is duration percent complete.
- ▶ Red line is work percent complete

Forecast milestone completion

- This chart shows the projected completion dates for future milestones based on historical performance using the schedule performance index (SPI).
- Summary:
 - The Program is within established schedule performance thresholds.
 - Future milestones are projected to be completed behind schedule.
 - The amount of time the project is behind schedule is decreasing.
- Conclusions:
 - The project is behind schedule.

Late

Late tasks

Supporting information

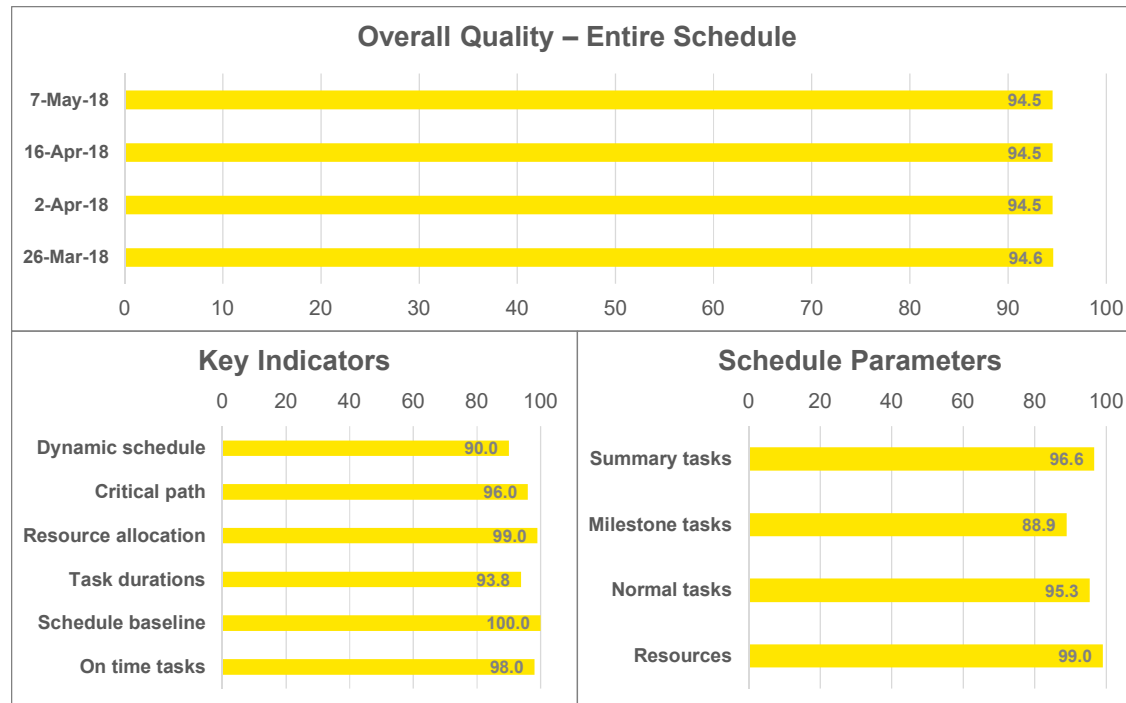

- This chart shows the number of tasks that are late for each of the IV&V reports for the following:
 - Total tasks late.
 - Tasks that are open (task completion percentage is greater than 0% and less than 100%).
- A task is automatically designated as “late” if it is not complete and the project status date is later than the baseline finish date for the task.
- Summary:
 - Total normal tasks: 3,062
 - Total tasks late: 62
 - Total open tasks late: 29
- Conclusions:
 - The total number of tasks designated as late is 2.0% of the total number of tasks.

POR31	01/13/17	Express Shipping	Currently the department allows customers to request express shipping of their driver license/ID card by supplying P&I with their personal express shipping account number for various providers (FedEx, UPS, DHL). It was decided previously by the ESC that the new Portal application will allow expedited shipping for Driver License/ID card issuances. Should we require the customer provide an account number or should we set a fee amount and bill the department's account for shipping? Alissa Hoban provided the current price sheet for the various options. 03/16/17 Update Aundrea Andrades presented the current pricing for Priority Overnight, FedEx Standard Overnight and FedEx two day overnight to the ESC. Aundrea suggested creating a table indicating the correct amounts for each service based on the zones and the board members agreed that it would be beneficial to use the pricing method moving forward. ESC requested information on how quickly we can process the issuance and what is the normal speed. 04/25/17 Update All mail received by 3:30 p.m. in the mail room will be delivered as follows: Priority Overnight will arrive by 10:30 a.m. next day FedEx Standard Overnight - Commercial will arrive by 3:00 p.m. next day FedEx Standard Overnight - Residential will arrive by 8:00 p.m. next day FedEx 2-Day will arrive by 10:30 a.m. 2nd day	Require additional information	
POR31 Cont....	01/13/17	Express Shipping						Require additional information		4/27/17 Update The ESC decided that we will give the customer 3 options for express shipping. The system will calculate the fee based on the shipping option and zone. The system will display the expected delivery date for each option. 05/17/17 Update As of the last update, the legislative bill did not pass. The team would like directions for the next steps. POR31 Cont....	01/13/17	Express Shipping						Require additional information		05/18/17 Decision The department will continue with previous plan. 05/22/17 Update Deb Roby emailed a copy of the Card Print Solution contract and the following notes: I have attached a few pages with language from the card print solution contract regarding expedited printing. The contract only addresses two types of printing and mailing for credentials. 1. Standard processing with first class mailing 2. Expedited processing with next business day delivery The contractor is required to produce separate invoice details for the expedited credentials with the shipment tracking information, in addition to the regular invoices. There are specific prices identified for each type of credential processing and mailing (regular and expedited/overnight) during the term of the contract and the extension periods. POR31 Cont....	01/13/17	Express Shipping						Require additional information		03/26/18 Update Portal team members met with developers to review the express shipping requirements. Team members created flow diagrams and another meeting will be scheduled to review with the business partners. 04/10/2018 Update Team members met with representatives from Motorist Services, Purchasing and Idemia. The team reviewed the proposed workflow and the following concerns were raised: Legislative Approval Currently, there is a three-day hold for CIPS transactions; however, the MyDMV Portal will be performing real-time AAMVA verifications. Who will be responsible for packaging the credentials and updating the tracking information? (P&I and the mailroom stated they currently do not have the resources to package the express mail envelopes). Idemia is going to research express shipping model they have with other clients and give us a demo.	Require additional information

FR02	08/14/17	FR	The FR team is looking for a decision as to whether we should roll out the insurance companies XML onboarding as a "Big Bang" approach or a "Staggered" approach. We have more than 500 insurance companies that need to be moved to the new system. They will have more than a year for structured testing and preparing for the conversion, as FR development is complete in January 2018. We groomed our requirements to go with the "Big Bang" approach.	6/30/2018	If the "Big Bang" solution the team developed requirements for does not happen, additional hours unaccounted for will need to be considered to keep the old and new systems running parallel before we go live.	After discussion with the team, we determined that there are 3 options available: Option 1: Big Bang Approach - This is the way the team groomed the requirements. Option 2: Phased roll-out - Old and new FR systems run concurrently (2 different letters and rules are sent to customers) - Vendors/companies roll out over X amount of time (Drop dead date TBD) - When all vendors/companies have rolled out, the old FR system is retired <i>CR Required</i>		Require additional information		08/17/17 Update ESC would like to postpone making a decision until we can finish development of XML and get 4-6 companies structural testing and see how many issues they are having. Hopefully will have an answer by the next ESC meeting. 09/21/17 Update FR team still working on getting confirmations from insurance companies/vendors to start structural testing. State Farm Ins. has backed out. Farmers, Mercury, Verisk and Lexis Nexis are still on board to be involved in the pilot. Diana suggested that we go ahead and start the structural testing with the ones that have confirmed within the next week. 10/24/17 Update The team spoke to Pat Porter and we have 5 confirmations from insurance companies/vendors to start structural testing.	Require additional information	
FR02 Cont....	08/14/17	FR				Option 3: DHSMV Big Bang + Phased Vendor/Companies Roll-out - Change requirements to accept Flat Files and Old XML in New FR system - Stage 1: New FR system will process all existing files (Big Bang for department. No changes to vendors/companies) - Stage 2: Vendors/companies will roll out over X amount of time to the new XML (Drop dead date TBD) - 2 Large Deployments <i>CR Required</i> High level Estimated hours - 2,100 (not including testing)		Require additional information		Progressive (Flat file) AIG (XML/Flat) Farmers (New to FL- XML) Verisk (vendor-XML/Flat) United Automobile (Flat file) The team is reviewing the test scripts that SEU provided. The XML Deliverable 48 will be finalized by 10/25/17. The drafted manual has not been sent out yet, but have asked for feedback from some companies on items that they thought might be confusing. We are looking for a firm date from the business when we plan to provide the manual draft to all pilot insurance companies/vendors. 11/13/17 Update Draft XML Manual has been published on the Department's FR website. FR has created a spreadsheet to track the progress on SharePoint and are having weekly conference calls with pilot companies. FR will send a letter to all insurance companies listed with OIR in an attempt to reach companies that may not be aware of the changes.	Require additional information	
FR02 Cont....	08/14/17	FR						Require additional information		12/06/17 Update The pilot companies are still working through development issues on their side. The team's holding weekly conference calls with the companies to answer any questions or concerns. Currently, they are not ready to start structural testing. DBA's are assisting SEU with protecting the records needed for the testing (Curt is helping with this) Pat Porter is working on the letter to all insurance companies listed with OIR. 12/19/17 Update Last week's conference call was canceled, but the team is continuing the weekly calls and working through any issues or questions they are still having. The test data that has been locked down was confirmed by another team and it's ready to go. Test data records were placed in the companies output folders for the first round of structural testing. FR02 Cont....	08/14/17	FR						Require additional information		<p>12/19/17 Update Continued...</p> <p>We are following up with the pilot companies as to where they are with modifying their systems. United Auto Insurance stated they are in the process of getting their software up to speed, and hoping to convert to XML after the new year. AIG has sent and processed files successfully and will start structural testing hopefully this week. Verisk has not started anything as of yet, they are experiencing production issues. They have verified they can see the folders, but no further update at this time.</p> <p>The Stage Environment is being set up for January 2018 for all companies to use to structured test.</p> <p>01/04/2018 Update</p> <p>The Stage Environment is due to be ready by January 8, 2018.</p> <p>Pat Porter has completed the letter to the insurance companies and it is in the review process at this time. FR02 Cont....	08/14/17	FR						Require additional information		<p>01/04/2018 Update Continued...</p> <p>We are still holding the weekly pilot company testing progression call. AIG is moving quickly with their structural testing and haven't run into any major issues. Verisk has been struggling with production issues. One issue was related to AST, as their reload file was too large. We were told there were no limitations. Also, there was an anti-virus issue with files timing out. Verisk still has not started any pilot structural testing. United Automobile is having a problem related to the dummy NAIC codes we provided and getting them programmed in their system. The FR team is setting up a conference call with them and our technical team to help solve their issues. At this time, they have not started any pilot structural testing.</p>	Require additional information

FR02 Cont....	08/14/17	FR						Require additional information		<p>01/12/2018 Update Continued... The FR team held a conference call with United Automobile Ins Co. with our tech team. The recommendation was it might be easier for them to start structural testing now that the stage environment is ready, since they are having problems with the mocked/test data not originally generated from their third party vendor's system. We are looking for them to submit their files to the stage environment, allowing us to smoke test the environment with an actual insurance company. AIG is working through testing. They have nine tests that he did not get the expected results. They need a developer to look at it. Verisk said due to production issues they haven't started yet.</p> <p>01/25/2018 Update The team's continuing the weekly pilot company progression calls. This week all three companies participated.</p> <p>The insurance letter was approved and mailed out to the companies on January 18. The team is getting responses from the companies with their contact person and phone numbers. We will have approximately 159 accounts to bring over to XML throughout this year; 592 companies.</p>	Require additional information	
FR02 Cont....	08/14/17	FR						Require additional information		<p>01/25/2018 Update Continued... The stage environment had an issue with the verification batch job not working. Jon Hall found the solution and corrected the issue. Verisk still has not started with any testing. AIG is working through their test cases. United Auto Insurance Company is moving slowly. The team would like to start moving companies over to the stage environment.</p> <p>Allstate and USAA have not responded with any additional information regarding helping with structural testing. We are reaching out to them again now that they have received the letter.</p> <p>The final XML manual edits have been completed and posted to the Department's FR website.</p> <p>02/12/2018 Update The business is moving forward to establish points of contact to coordinate final structural testing for all insurance companies by December 2018.</p> <p>Out of the Pilot Testing, it was discovered a production issue impacting RELOAD would impact OMM. FR03	4/27/2018	FR	The FR team is looking for a decision whether the insurance companies will need to do a full reload for go-live or just use their Book of Business to clean up their records. The team recommends doing a full reload prior to go-live. If we use their Book of Business, we will lose history and possibly FR cases, which will cause a loss in revenue.	6/30/2018	If DHSMV uses the insurance companies' Book of Business, we risk the chance of losing history and possibly FR cases, which will cause a loss in revenue.					05/18/2018 Update The ESC recommends using the Insurance Companies' Book of Business, wipe clean and start over. The team needs to check with Desi to make sure this would not be a programming issue. 06/07/2018 Update The team checked with Desi Tatilian, Chris Hansen and Jon Hall. Jon said it would take him about 16 hours on his side and Chris Hansen said about 8-16 hours for the operations side. General Information	
Agile Project Name	Motorist Modernization Phase I – MyDMV Portal
Change Request Title	MyDMV Sprint Schedule Change
Change Requested By	Aundrea Andrades
Product Owner	Deepa Vasudevan
Date Requested	5/30/2018

Change Request # <i>(To be assigned by CCB Chair)</i>	126
<input checked="" type="checkbox"/> New Request	<input type="checkbox"/> Resubmitted / Amended Request

Change Request Information <i>(completed by the requestor)</i>
Description of Change: The purpose of this change request is to combine both (1.) Milestone G Sprint 29 + HIP Sprint and (2.) Milestone H Sprint 30 + HIP Sprint into single sprints. Due to the short duration of the HIP Sprints and the overhead of conducting Sprint ceremonies, the team believes it will be more productive to consolidate these time periods.
Classification: Medium <input checked="" type="checkbox"/>
<i>Due to the level of classification (Level III) and isolated impact to the schedule/sprint (not on the critical path), total work effort between 6 business days (48 hours) and 10 business days (80 hours), no impact to the milestone schedule, minor scope change(s) and/or minimal impact to budget (<\$500, no increase to overall program budget), this change request may be approved by the Program Director¹ in accordance with the MM Phase I Program Management Plan.</i>
Change Request Type: <input type="checkbox"/> New (Unplanned/Missed) Work Effort <input type="checkbox"/> Re-work <input type="checkbox"/> New (Expanded) Work Effort <input type="checkbox"/> Removal/Archival

Business Need / Justification <i>(completed by the requestor)</i>
Typically, a day and a half are consumed in ceremonies for each sprint. Because Milestone G and H each currently include a 4-day HIP Sprint, the team believes it would be more efficient to consolidate the HIP Sprints into Sprints 29 and Sprint 30, respectively.

Impact Analysis
Requirements Change Description: N/A
Technical Change Description: N/A
Associated Wrap Number? N/A
Impact on Backlog: None. The MyDMV Portal team will address all remaining Milestone G and H development and testing in the combined Sprint 29/HIP and Sprint 30/HIP time periods.

¹ All non-critical CRs must be approved by the ESC, per revised process effective on 5/4/18.
