    - Issue 105 – Batch Transcript Testing – The team has been working with Pinellas County.
    - Issue 121 – Waiver for VLS 3.2
    - Issue 129 – Informatica Impact on UAT
  - The team was yellow for business actions and technical debt, green for development and red for testing on the Traffic Light Report. The team’s revised target completion date for sprint testing is June 7. The targeted completion date for UAT was June 5, but the team is still testing. The team has a few pending change requests to work on as well. Key implementation activities for the team include:
    - Technical Debt – Develop code to “convert” FDLIS roles/operations to ORION roles/role sets

The team is also working on 32 UAT test scenarios. No scripts have been completed by the team, yet. The team continued to mitigate bugs. - Key risks and issues for the team included:
