FLHSMV  
Florida Tax Collectors  
Florida Tax Collectors  
Law Enforcement  
Law Enforcement

Agenda

• Roll Call  
• Welcome  
• New Advisory Board Membership  
• Review and Approval of Last Meeting Minutes  
• IV&V Update  
• Stakeholder Outreach Update  
• MM Phase II Program Update  
  o Financial Review  
  o Project Updates  
• Communications Update  
• Q&A  
• Adjourn
Motorist Modernization Advisory Board – Phase II Meeting  
Tuesday, September 14, 2021  
2:30 to 4:00 PM  
VIA: Microsoft Teams

WELCOME AND INTRODUCTIONS

- The meeting was called to order at 2:30 p.m. Terrence Samuel began the meeting by welcoming members and visitors and proceeded with the roll call of board members.

Advisory Board Phase II members included:

- Lt. Jason Britt
- Diane Buck
- Jay Levenstein
- Scott Lunsford
- Sherri Smith
- Sgt. Derek Joseph (absent)
- Steve Burch
- Stephen Boley

- Additional FLHSMV members included – Terrence Samuel, Kristin Green, Rachel Graham, Catherine Alvarez, Michael Anderson, Elise Batchelor, Stacey Bayyari, Felecia Ford, Laura Freeman, Chad Hutchinson, Judy Johnson, Scott Lindsay, Pavel Machado, Aundrea Powell, Cathy Thomas, Janis Timmons, Scott Tomaszewski, and Christie Utt.

- Visitors included – Michelle McGinley and Joseph Weldon from Accenture, and Margie France with Ernst & Young attended. Carl Ford with J Ford Consulting, Andrea Tomasso with Grant Street, and Glenn Turner attended. Public member, Jeff Cohen also attended.

REVIEW OF MEETING MINUTES

- Rachel Graham reviewed the meeting minutes from August 10, 2021. No corrections were identified. A motion to approve the minutes was accepted by the board members and the August 10, 2021, meeting minutes were approved.

PHASE II IV&V UPDATE

- Margie France presented an overview of the IV&V report for Phase II. The current risk state was amber. There was one open deficiency (P2D5) concerning lack of an integrated resource pool. The schedule performance index was 0.954 and the “to complete schedule performance index (TSPI)” was 1.078 with the four-week moving average not improving. 20 of 1,616 total tasks contained in the project schedule were late. The program completion date was forecasted to be 25.4 days late.

STAKEHOLDER OUTREACH

- Terrence Samuel stated the team presented an update on Phase II and an overview of Florida Smart ID (FSID) at the Tax Collector Education Forum during August 30 – September 1, 2021.
FINANCIAL REVIEW

- Janis Timmons presented a Phase II financial review. The Phase II budget for the 2021–2022 fiscal year is $10.5 million. Approximately $616K has been expended as of August 2021 with a 0% variance and approximately $9.5 million in remaining funds.

PHASE II PROJECT UPDATE

- Joseph Weldon stated Team A (Title and Registration) is currently working in Sprint 29 and continued to work on development and testing of the Original Registration Transaction for Milestone C. The team is working on development and testing of Milestone D user stories. They are also working on refinement for regular renewal and replacement plate and decal for Milestone D. The team continued to meet with AAMVA and define the NMVTIS interface and related stories.

- Team B (MV Globals) is currently in Milestone E and continued to work on development and testing with a focus on order and maintaining excluded plates functional areas. The team also continued to work on refinement for Milestones D and E user stories.

- He stated all teams continued to work through their backlogs.

- Scott Tomaszewski stated the IFTA/IRP team is currently in Milestone C, Sprint 10. The planned focus of this milestone was to complete IRP issuance endpoints; however, Milestone B, Hip Sprint continues to be late as Decal/License Issuance and Tax Return (Process Issuance) have late functional testing bugs, which have uncovered gaps in the code and requirements as they were documented. The target is September 17, 2021 to complete these two stories. Business Actions were yellow on the stoplight report, trending towards red, as it relates to the Milestone C IRP issuance epic story. This must be broken down into child stories to include references of the additional motor vehicle backend complexities. This work was not accounted for in the original estimates. Development was red as the team has two late Milestone B, HIP Sprint stories for IFTA issuance endpoints that are also reported blocking Celtic IFTA development. Additional factors to the overall impact to development is the complexity faced by the current assigned ORION developers in completing the IRP issuance server endpoints and the impact reported under Program Issue #46, vendor staffing impacts getting planned resources stateside prior to February 2022. ORION Integration is red due to the Milestone B IFTA Issuance late stories. The Scope/Schedule is reflecting red due to development impacts and requirement gaps discovered that will require a schedule change request to adjust to the currently assigned resources, and to account for gaps in how the team is to address the motor vehicle data model. This schedule change request is currently under discussion.

  o Issues for the team included:
    - Issue 46 – Vendor staffing challenges related to development resources.
  
  o Important activities for the team included:
    - Team continues Blueprint Pre-Refinement activities three times per week (2 with Product Owners, 1 with developers).
    - Address impact to IRP Interface stories due to the complex logic that is required.
    - Complete late IFTA Issuance endpoint work for Celtic.
• Mr. Weldon stated the FSID team completed all the UAT test cases last week. The team is in the process of closing their final testing for Phase I (Change Request #6, focusing on support options in the mobile ID). A bug concerning this is being deployed today. Two deployments are planned for next week to move all the updates from Phase I, as well as initial VPN updates for Day 1.5 and Day 2, into production. The team continued to work on testing Day 1.5, which focuses on record updates pushed to the mobile DL (mDL) and allowing enrollment through MyDMV Portal. The team also continued to work with Thales on designs for Day 2, which focuses on remote enrollment and authentication. The team has met with Thales to discuss the subcontract agreement regarding onboarding of additional mDL vendors as this is a precursor to going live.
  o Important activities for the team included:
    ▪ Stakeholder Survey Results
    ▪ External Pilot Event in Tampa at RaceTrac – September 22, 2021
    ▪ Production Deployments of Latest Application Changes in September
  o Risks and issues for the team included:
    ▪ Risk 94 – Issue 29 Realized – Data Issues in Stage
    ▪ Issue 34 – Risk 79 Realized – UAT Late
    ▪ Issue 42 – Risk 94 Realized – FSID Onboarding
  o Terrence Samuel added that the team is in discussions with Apple concerning the FSID.

• Catherine Alvarez stated the Enterprise Content Management (ECM) team is currently regression testing in stage and preparing for UAT testing with end users. The team began performance testing and will continue to monitor metrics. The team is preparing for go-live and finetuning when that date will be.
  o Important activities for the team included:
    ▪ User Acceptance Testing (UAT)
    ▪ Performance Testing
    ▪ Production Server Active – Active Setup
    ▪ Production Migration Start Date – September 10, 2021
    ▪ Smoke Testing – September 24 – 27, 2021
    ▪ Full Production Implementation – Targeting end of month
  o Risks and issues for the team included:
    ▪ Risk 101 – If NPS cannot quickly configure new documents to be added to the ECM as they are identified and refined by the Phase II Team, then it could impact the schedule as the team waits for implementation of the new document in the ECM.
    ▪ Risk 102 – If UAT does not start in a fully integrated stage environment by August 31, then it could impact the team’s ability to meet the scheduled go-live date.

• Aundrea Powell stated the MyDMV Portal/Fleet team was in Milestone H, Sprint 24 and continued to test the final Milestone C stories and develop and test the Milestone D stories as well.
  o Important activities for the team included:
    ▪ ICFS Go-Live Date – October 29, 2021
    ▪ MV Express Renewal Go-Live Date – TBD
    ▪ MyDMV Readiness for FSID Go-Live – TBD
  o Risks and issues for the team included:
Issue 28 – A developer from the MyDMV Portal team will be spending several sprints working on ECM functionality, which will put the team further behind schedule for development and testing. The resource will be split until completion of ECM.

The team is also losing a Business Analyst and a Developer which may cause team impacts.

**COMMUNICATIONS UPDATE**

- Koral Griggs discussed the upcoming FSID pilot event with Racetrac in Tampa, Florida from September 21 – 22, 2021. Age verifications and law enforcement verifications will be performed.
- Elise Batchelor stated an overview of FSID will be presented to members of Troop C as well.

**Q&A**

- Carl Ford asked if the meeting at the Tax Collector Conference was recorded or if there is similar presentation that could be provided?
- Mr. Samuel stated he will check with the Tax Collectors to see if that session was recorded. He stated a similar presentation was presented to Department of Revenue previously as well.
- Mr. Ford also asked about Bulk Title and Registrations and the license plate agencies.
- Cathy Thomas stated this was on the change request list for ESC.
- Mr. Samuel stated he will meet with Ms. Thomas to discuss and will provide an update.
- Glenn Turner asked what issue was going to be tested at the RaceTrac event in Tampa?
- Mr. Samuel stated RaceTrac was interested in testing sales that require age verification.
- Mr. Turner also asked if the Tax Collectors will be able to perform multiple transactions at one time using the kiosk?
- Judy Johnson stated she believes this is the case, but she will have to look at the requirements to confirm.
- Mr. Samuel stated they can provide an update at the next meeting.
- Scott Lunsford asked what the commercial permit system is?
- Ms. Johnson stated it is the trip and fuel permits that those carriers purchase currently to travel within the state. Out-of-state carriers purchase these permits to travel.

**ADJOURNMENT**

- Mr. Samuel adjourned the meeting at approximately 3:00 p.m.
- The next Advisory Board Phase II Meeting is scheduled for November 9, 2021.
Note: Handouts at this meeting included:

Consolidated in a meeting packet and emailed to members:

Monthly Assessment Report Summary

September 2021

29 October 2021
Topics for discussion

► General IV&V overview
► Overall risk state and trending
► Project complete date slippage
► Schedule variance
► Project budget
► Summary of changes
► Upcoming IV&V activities
► Supporting information

Data contained in this MAR is as of 30 September 2021
### General IV&V overview

**Overall IV&V risk state:** Amber

- **There is one (1) open IV&V deficiency**
  - P2D5 – Lack of an integrated resource pool

- **The MMP2 Project is within established schedule performance thresholds**
  - The SPI is 0.935 and the four-week moving average is *not improving*.
  - 24 of 1,616 total tasks (1.49%) contained in the project schedule are late and the four-week moving average is *steady*.
  - SV is currently -3,988.2 hours and the four-week moving average is *not improving*.
  - TSPI is 1.126 and the four-week moving average is *not improving*.

- **The MMP2 Project is within established cost performance thresholds**
  - The CPI is 1.000 and the four-week moving average is *steady*.
  - CV is currently 0.0 hours and the four-week moving average is *steady*.
  - The Project is currently on budget based on provided budget and spending information.

- **The MMP2 Project is behind schedule**
  - The Project completion date is forecast to be 29 December 2023, 30 days late.
  - Future milestones are projected to be completed behind schedule.
  - The four-week moving average for time the project is behind schedule is *not improving*.
General IV&V overview (continued)

► Since the onset of the corona virus pandemic, Florida and its state agencies have had to exercise flexibility in the way it conducts business.

► Despite this challenge, the MMP2 team continued moved forward and adjusted to a fully remote working environment without affecting its quality and quantity of work.

► As Florida has opened back up and transitioned to a “new norm”, FLHSMV has acclimated to a hybrid working environment. Up to 50% of the agency has returned to an on-site working mode in some form or fashion while the remaining resources continue to work remotely.

► During this second transition, FLHSMV successfully navigated with minimal disruption while maintaining its quality and production towards successful implementation.

► Florida’s state agency hiring freeze has been lifted.

► Hiring of MMP2 resources continues to occur as needed. The MMP2 team is actively tracking Risk 74 and continues to closely monitor productivity in the hybrid working environment.
Overall risk state and trending

Program governance

Benefit realization and sustainability

As of 30 September 2021

Indicates that the area being assessed has critical issues that will result in significant risk to the project, most likely resulting in either the inability to achieve the outcomes, inability to meet the projected schedule, or a significant cost overrun. Requires immediate action.

Indicates that the area being assessed has issues that need to be resolved; inefficiencies exist. Current process/method can be used with refinement.

Indicates that the area being assessed did not have significant issues to report. Continued monitoring should be performed.

Indicates that the area being assessed has incomplete information available for a conclusive finding or is not applicable.
This chart shows the forecast slippage of the project complete milestone based on historical performance using the schedule performance index (SPI).

**Summary:**
- The Project completion date is forecast to be 29 December 2023, 30 days late.

**Conclusions:**
- The four-week moving average for time the project is behind schedule is **not improving**.
- The MMP2 Project is behind schedule.
This chart shows the cumulative planned value (PV) and earned value (EV) for the project.

**Summary:**
- Total EV is less than PV, indicating there is scheduled work that is not being completed as scheduled.
- The total amount of work not completed as scheduled is 3,988.2 hours or 24.9 person months.

**Conclusions:**
- The four-week moving average for work not completed is **not improving**.
- The MMP2 Project is behind schedule.

- Blue area indicates the cumulative PV as of the current reporting period.
- Grey area indicates the cumulative EV as of the current reporting period.
- PV is the work scheduled to be accomplished.
- EV is the value of the work actually performed.

Schedule and cost performance

Supporting information

- Green area indicates within tolerance of +/- 10% for both SPI and CPI.
- Amber area indicates review is required and corrective actions may be necessary.
- Red area indicates out-of-tolerance and corrective actions are necessary.

This chart shows the SPI and CPI plotted as points against the tolerance ranges set up for the project.

Summary:
- Schedule and cost performance are within established thresholds.

Conclusions:
- The Project is behind schedule but within established performance thresholds.

As of 01 October 2021:
SPI = 0.935
CPI = 1.000

Based on data loaded into the Phase II Master Schedule
Schedule and cost performance (continued)

- Blue line is duration percent complete.
- Red line is work percent complete.

Supporting information

- This chart shows the percent complete for duration and work for the project.
- Summary:
  - Duration and work complete have been increasing since the beginning of the project.
- Conclusions:
  - None.
Schedule and cost performance (continued)

- Blue line is TSPI
- Red line is SPI
- TSPI is the future schedule efficiency required to complete the project as scheduled

This chart shows the TSPI and SPI indexes and associated trends.

Summary:
- The SPI four-week moving average is not improving.
- The TSPI four-week moving average is not improving.

Conclusions:
- Future required schedule efficiency (TSPI) is diverging from the current schedule efficiency (SPI).

SpI and TSPI indexes

SPI = EV/PV

TSPI = (BAC-EV)/(BAC-PV)

4 week moving average (SPI)

4 week moving average (TSPI)

Late tasks

Supporting information

- This chart shows the percentage of tasks that are late for the entire schedule.
- A task is automatically designated as “late” if it is not complete and the project status date is later than the baseline finish date for the task.
- Summary:
  - 1.49% of total tasks contained in the project schedule are late.
- Conclusions:
  - The four-week moving average for the number of late tasks is steady.
  - The MMP2 Project is behind schedule.

Based on data loaded into the Phase II Master Schedule

Late Tasks - Entire Schedule

Motorist Modernization Phase II – November 9, 2021
IFTA / IRP Project Update

**Key Dates, Activities Milestones**

**Contract Signed** – 06/2020 to Celtic

---

**Deliverables in next 30-60 Days & Status**

- Vendor Training Plan – 10/21/21

---

**Important Activities – November**

- Team continues Blueprint Pre-Refinement activities three times per week (2 with POs 1 with Devs).
- Look to augment development team with developers with MV Knowledge to improve velocity.

**Key Dependencies/Assumptions**

- Operational resources available at key times in the project (Environment Setup, Code Promotions and Data Extracts) to alleviate delays.

**IFTA/IRP Specific Risks & Issues – Program Level**

- P2 – Issue #46 – Vendor staffing challenges related to development resources.

---

**Team Profile**

- # User Stories: 559*
- # Developers: 4.5 *
- # Testers: 3*

---

**Business Actions**

- COTS Configuration
- ORION Integration
- Data Conversion
- Scope / Schedule
Florida Smart ID Project Update

**Key Dates, Activities Timelines**

**Contract Signed** – 06/2020 to Thales

**Deliverables in next 30-60 Days & Status**
- Onboarding Additional mDL Vendors – 04/12/2021 – 06/11/2021

**Important Activities – November**
- FSID, LEA and POA Apps Ready in Apple and Google Stores 11/2/2021
- Working on Phase 2 Schedule with Thales:
  - Remote Enrollment
  - Online Authentication
  - Additional FSID Use Cases

**Key Dependencies/Assumptions**
- Keep initial release meaningful, but sized for “success” given short timeline
- Other vendors are dependent upon Thales Remote Enrollment updates planned for Phase 2

**Team Profile**
- # User Stories: 74
- # Developers: 0.5
- # Testers: 3+

**mDL Specific Risks & Issues – Program Level**
- Issue 42 - Risk 94 FSID Onboarding Realized

**Business Actions**
- Florida SMART ID Configuration
- FLHSMV Integration
- Security / Technology
- Scope / Schedule
Enterprise Content Management (ECM) Project Update

Key Dates, Activities Milestones
• Contract Signed – **OnBase Software; 06/2020 to Next Phase Solutions**

---

Day 1 - Important Activities – Nov
• Finalize Active-Active configuration in Dev/Test/Stage
• Conduct Performance Testing in Stage
• Complete Prod Delta Migration into OnBase
• Configure Active – Active in Prod

---

Day 2 - Important Activities – Nov
• Discovery Site Visit w/NPS (15-16 Nov)
  • Scanning Unit Walkthrough
  • Contract Discussion
  • Planning Session
  • Middleware Review

---

Key Dependencies/Assumptions
• Keep initial release meaningful, but sized for “success” given short timeline
• SEU production smoke testing doesn’t exceed the planned 72 hours

---

ECM Specific Risks & Issues – Program Level

Risk 101 – IF NPS can’t quickly configure new documents to be added to the ECM as they are identified and refined by the Phase II Team, THEN it could impact the schedule as the team waits for implementation of the new document in the ECM. *(Opened 8/17/2021)*

Issue 55 – Risk 106 realized. FLDS approved request however request on hold pending production environment stabilization by FLDS. *(Opened 10/11/2021)*

---
