PHASE II IV&V UPDATE
• Margie France presented an overview of the IV&V report for Phase II. The current risk state was amber. There was one open deficiency (P2D5) concerning lack of an integrated resource pool. The schedule performance index was 0.935 and the “to complete schedule performance index (TSPI)” was 1.126 with the four-week moving average not improving. 24 of 1,616 total tasks contained in the project schedule were late. The program completion date was forecasted to be 30 days late.
STAKEHOLDER OUTREACH

- Terrence Samuel stated he and Chad Hutchinson presented an overview of Florida Smart ID (FSID) to the House and Senate.
- Kristin Green stated she presented at the Auto Dealer Industry Advisory Board meeting along with Felicia Ford, Cathy Thomas, Catherine Alvarez, and Elise Batchelor. They presented an update of the Motorist Modernization Project, planned functionality for the Titles and Registrations team as it relates to dealers, and planned Phase III functionality for the Dealer Services and MyDMV Portal teams.

FINANCIAL REVIEW

- Janis Timmons presented a Phase II financial review. The Phase II budget for the 2021 – 2022 fiscal year is $10.5 million. Approximately $2.3 million has been expended as of October 2021 with a 0% variance and approximately $8.1 million in remaining funds.

PHASE II PROJECT UPDATE

- Joseph Weldon stated Team A (Title and Registration) is currently working in Sprint 31 and continued to work on testing of the Original Registration Transaction for Milestone C. The team is also working on development and testing of Milestone D user stories including print electronic title. They are also working on refinement for regular renewal and replacement plate and decal for Milestone D. The team continued to meet with AAMVA and define the NMVTIS interface and related stories.
- Jennifer Miller stated Team B (MV Globals) is currently working on Milestone E and F stories including inventory and administration modules. The team also continued to work on refinement for these user stories. Development and testing are currently trending red on the Traffic Light Report until the team is confident in their backlog health.
- Scott Tomaszewski stated the IFTA/IRP team completed the IFTA Tax Return issuance endpoint from Milestone B allowing to officially report Milestone B closed. The team cleared the vendor development block of IFTA configuration work. Milestone C is late as both development and business requirements are red as the team uncovered additional work found for the IRP Issuance endpoints that will need blueprint updates and work to be added to the schedule. For the stoplights showing red, the primary focus for this update will be on the development work and the late schedule. This will have to include additional work in the IRP Issuance endpoints for the legacy motor vehicle logic that will need to be addressed while the team goes live in Phase II. The team further discovered additional work to handle VOID Issuance for both the IFTA and IRP modules, and a more robust design for the transaction error queue to handle the transaction failures between the COTS solution and ORION. These impacts in addition to the vendor challenges reported under Issue 46, in getting their planned development resources stateside, will require a schedule change to adapt the project for recovery.

  o Important activities for the team included:
    ▪ The team continues Blueprint Pre-Refinement activities three times per week (two with Product Owners, one with Developers).
    ▪ Augment development team with developers with motor vehicle knowledge to improve velocity.
- Mr. Weldon stated for the FSID team, there have been 110 enrollments today for FSID. The team also continued to work with Thales on the Phase II schedule.
Important activities for the team included:
  - FSID, Law Enforcement, and Proof of Age Apps are Ready in Apple and Google Stores – November 2, 2021
  - Working on Phase II Schedule with Thales:
    - Remote Enrollment
    - Online Authentication
    - Additional FSID Use Cases

Risks and issues for the team included:
  - Issue 42 – Risk 94 Realized – FSID Onboarding

- Ms. Miller and Catherine Alvarez stated the Enterprise Content Management (ECM) team is preparing for go-live and finetuning when that date will be.

Day 1 Important activities for the team included:
  - Finalize Active-Active configuration in Dev/Test/Stage
  - Conduct Performance Testing in Stage
  - Complete Production Delta Migration into OnBase
  - Configure Active – Active in Production

Day 2 Important activities for the team included:
  - Discovery Site Visit with NPS (November 15 – 16)
    - Scanning Unit Walkthrough
    - Contract Discussion
    - Planning Session
    - Middleware Review

Risks and issues for the team included:
  - Risk 101 – If NPS cannot quickly configure new documents to be added to the ECM as they are identified and refined by the Phase II Team, then it could impact the schedule as the team waits for implementation of the new document in the ECM.
  - Issue 55 – Risk 106 realized – FLDS approved request; however, request is on-hold pending production environment stabilization by FLDS.

- Aundrea Powell stated the MyDMV Portal/Fleet team was currently working in Milestone I, Sprint 26. They continued to test the final Milestone C stories and develop and test the Milestone D stories as well.

Important activities for the team included:
  - ICFS Go-Live – October 27, 2021
  - MyDMV Readiness for FSID in Production on October 27, 2021; Go-Live – November 7, 2021
  - MV Express Renewal Go-Live Date –TBD

Risks and issues for the team included:
  - Risk 104 – Business Analyst resigning may impact sprint ceremony activities and blueprint updates. Other Business Analysts will fill-in until position is filled.
  - Issue 15 – Two developer positions currently open

Sherri Smith asked about enrolling with FSID using a QR code?

- Mr. Weldon stated there will be a transaction to enroll in FSID on MyDMV Portal. Once enrolled, the customer will receive an email confirmation with both a QR code and activation code.
