General Information

A. Proof of Ownership:

The Florida Certificate of Title must be in the name of the customer applying for registration, or their application for a Florida Certificate of Title must be submitted with proper proof of ownership.

B. Name of Owner or Registrant:

The complete first name, full middle/maiden name, and last name for each owner. If the application is in the name(s) of a natural person(s), the Florida driver license or Florida ID card number(s) should be shown for all owners. If the customer is a business, the FEID number is required.

If a licensed dealer is submitting an application for registration on behalf of an individual, the dealer will need to submit a copy of a state issued driver license or identification card, a valid passport or foreign passport with a stamp or mark affixed by the United States Department of Homeland Security or an unexpired I-94, or current permanent resident card, or unexpired immigrant visa issued by the United States Department of Homeland Security as outlined in Section 320.01, Florida Statute.

If the sole registrant being listed is a minor, then the application for registration must have a parent, guardian, or custodian listed as a co-registrant.

Beginning Oct. 1, 2018, when performing a registration, customers will have an opportunity to voluntarily indicate if they are Deaf or Hard of Hearing. The customer must be present to voluntarily make the indication. This information will assist law enforcement in ensuring they use adequate and appropriate communications with deaf or hard of hearing motorists. If the customer responds “yes”, check the box that corresponds with the customer. If the transaction is voided, the indicator flag will have to be manually removed from the Customer Detail Maintenance Form (MTRFM010).

C. Address of Owner or Registrant:

Residence Address Required:

Section 320.02(2)(a), Florida Statutes, requires the application for registration must include the street address of the owner's (registrant's) permanent residence or the address of his or her permanent place of business and be accompanied by personal or business identification information.

An individual customer must provide a valid driver license or identification card issued by this state or another state or a valid passport as defined in Section 320.01, Florida Statute. If the sole registrant being listed is a minor, then the application for registration must have a parent, guardian, or custodian listed as a co-registrant. A business customer may provide a federal employer identification number, if applicable, or verification that the business is authorized to conduct business in the state, or a Florida municipal or county business license or number.

If the owner/registrant does not have a permanent residence or permanent place of business, or if the owner's permanent residence or permanent place of business cannot be identified by a street address, the application must include additional information:

- a. If the vehicle is registered to a business, the name and street address of the permanent residence of an owner of the business, an officer of the corporation, or an employee who is in a supervisory position must be included. Or,
- b. If the vehicle is registered to an individual, the name and street address of the permanent residence of a close relative or friend who is a resident of this state must be included.
- c. If the vehicle is registered to an active-duty member of the Armed Forces of the United States who is a Florida resident, the active-duty member is exempt from the requirement to provide the street address of a permanent residence.

- d. If a customer does not have a valid, or otherwise unexpired, Florida Driver License (DL) or Identification Card (ID), users may add a residential address. Exception: If a customer has a valid Florida DL or ID, user may only update the mailing address. Changes to a customer's residential address should only be made as part of a DL or ID replacement or renewal transaction to ensure the customer has the ability to update his or her voter information in accordance with sections 97.057 and 98.065(5)(a) Florida Statutes.

Mailing Address Required:

If the owner/registant has a mailing address that is different from the address of their permanent residence, the mailing address is required to be used for mailing purposes. If a Florida resident is using a Post Office Box as a mailing address, the residential address must also be provided. This does not apply to an active-duty member of the Armed Forces of the United States who is a Florida resident.

Exception : If a customer has a valid Florida DL or ID, user may only update the mailing address. Changes to a customer's residential address should only be made as part of a DL or ID replacement or renewal transaction to ensure the customer has the ability to update his or her voter information in accordance with sections 97.057 and 98.065(5)(a) Florida Statutes.

Address Change:

The owner/registant of any motor vehicle registered in the state shall notify the department in writing of any change of address within 30 days of such change. The notification shall include the registration license plate number, vehicle identification number, or title certificate number, the year and make of the vehicle, and the owner's full name, including their driver license or FEID number.

Florida Residency/Florida Address:

If the owner/registrant does not live in Florida full or part time and cannot provide a Florida address, the motor vehicle cannot be titled and or registered in Florida. The motor vehicle must be titled and or registered in their home state.

Exemptions: Section 119.071, Florida Statutes, allows active and former judges, firefighters, law enforcement officers, and various others to exercise the exemption to use their home address. For additional information, refer to Procedure RS-08.

Section 320.02(2)(a), Florida Statutes, allows an active-duty member of the Armed Forces of the United States who is a Florida resident exemption from the requirement to provide the street address of a permanent residence.

D. Vehicle Information:

A complete description of the motor vehicle including the make, year, model, body, color, weight, length, bhp/cc, GVW/loc, and identification number for vehicle makes manufactured in 1955 or later. Use the motor number for all vehicle makes manufactured through 1954.

The person requesting registration declares the maximum gross vehicle weight for trucks (over 5000lbs), truck-tractors, buses, and the length in feet for mobile homes.

Or

Fully autonomous vehicles (AVs) belonging to a fleet or being tested in a pilot program should be titled and registered in the company name with a FEID number. Government entities, such as state agencies, counties, cities, and state universities utilizing AVs should title and register these vehicles in the same manner that they do their other vehicles, see TL-68. These vehicles are to be processed in the same manner as any other similar, equal, or comparable motor vehicle. If the AV is a bus,

process as a standard bus registration and title transaction with the correct corresponding Class Code (See RS-56 and TL-10). For a passenger vehicle, see RS-01 and for motorcycles RS-61.

Autonomous vehicles (AV) will be titled and registered at tax collector offices or license plate agencies. To process these transactions the following documentation and information is required:

- Application for Certificate of Motor Vehicle Title – 82040 MV
- Proof of insurance, verify the following
 - Primary liability coverage of at least \$1 million dollars for death, bodily injury, and property damage.
 - Personal injury protection benefits that meet the minimum coverage amounts.
 - Uninsured and underinsured vehicle coverage.

E. Owner/Registrant's Sex and Date of Birth or Annual Registration Period:

1. The owner/registrator's sex must be identified as follows:
 - "F" for female.
 - "M" for male.
2. The owner/registrator's date of birth must be identified in numeric characters using two digits each for month, day and year as follows:
 - An individual with a birth date of July 3, 1947, would be recorded as 07/03/47.

- An entity with the assigned annual registration expiration date of October 31, 2000, would be recorded as 10/31/00.
3. Some county tax collectors provide a renewal notice that reminds the customer to renew his or her registration each year. Registration renewal notices are not required by state or federal law.

F. Proof of Insurance:

Proof of Florida insurance is required. Refer to Procedure RS-36 for additional insurance requirements.

1. Proof of insurance is not required to be submitted for self-propelled vehicles with less than four wheels, or trailer, mobile home, motorcycle, or government-owned vehicles.
2. The use of a vehicle or the name in which it is registered has no effect on the insurance requirement.
3. If an individual has a pending Financial Responsibility suspension, they must contact the nearest Driver License Examining Office or the Customer Service Center for instructions on how to clear the suspension.
4. Registration must be refused if the owner does not submit proof of insurance or if proof cannot be obtained.
5. Insurers shall furnish uniform proof-of-purchase cards in a paper or electronic format in a form prescribed by the department and shall include the name of the insured's insurance company, the coverage identification number, and the make, year, and vehicle identification number of the vehicle insured.

G. Five-Digit Insurance Code:

All acceptable forms of insurance verification should have the five-digit company code to accurately identify the company. If that code is not shown, use the following steps to determine if the company is approved to do business in Florida:

1. Enter the insurance company's name to find out if it is on the insurance table as an approved company.
2. If the insurance company's name is not found in the insurance table, contact the insurance agent to get the code. The website link to check an insurance company through the Florida Department of Financial Services is: <http://www.floir.com/CompanySearch/>.
3. A U.S. Armed Forces member and their spouse, who is a Florida resident stationed out of this state, and is the owner or co-owner of a vehicle, may be exempt from proof of Florida insurance. Refer to special requirements and instructions in Procedure RS-36.

H. Assigned Identification Number:

1. Individual:
 - a. Driver license number.
 - b. Identification card number.
 - c. Customer number assigned by the motor vehicle issuance system.
2. Companies and entities other than a natural person:
 - a. Federal Employee Identification Number (FEID) and Suffix (if available).

- b. Customer number assigned by the motor vehicle issuance system.

If one of the above assigned identification numbers is not available, the customer must be created and the motor vehicle issuance system will generate a customer number to be used for future transactions.

I. Safeguarding American Families Everywhere (SAFE) Designation:

Per Section 320.02(15), Florida Statutes, SAFE designation can be added to a motor vehicle registration record to indicate the registrant has been diagnosed with, or is the parent or legal guardian of a child or ward who has been diagnosed with, one or more of the following disabilities or disorders: Autism; Attention Deficit Hyperactivity Disorder; Down Syndrome; Alzheimer’s Disease; Traumatic Brain Injury; Posttraumatic Stress Disorder; Diabetes; Autoimmune Disorder; Deafness; Blindness; any other mentally or physically limiting disorder, so that communication awareness can be established when interacting with law enforcement or first responders in an emergency or crisis situation to receive immediate and appropriate assistance.

To add or remove a SAFE designation the following must be submitted:

- a. **Form Application for Developmental Disability and SAFE Designation – HSMV 72120.**
- b. **Adding, or removing, a SAFE designation to a motor vehicle registration record will be at no charge, but registration fees will be due as applicable for the transaction requested where the SAFE designation is added or removed from the registration record. If the registrant is only requesting that a SAFE designation be added to, or removed from, a motor vehicle registration record, process the transaction as a Registration Correction to not charge the registrant a fee.**

Issuance of License Plates and Validation Decals

Motor vehicle registration documentation consists of a metal license plate, a Florida vehicle registration certificate, and a validation decal. Certain permanent and special issue license plates do not require a validation decal to be affixed. There are four categories of license plates: regular graphic, special, specialty, and personalized.

When a license plate is issued, a regular validation decal is issued, and the license plate is displayed on the rear of the vehicle. However, when a license plate is issued for a truck tractor, the license plate is displayed on the front of the truck tractor. For information on the issuance of wrecker license plates, see Procedure [RS-46](#).

Some county tax collectors provide a renewal notice that reminds the customer to renew their registration each year. Registration renewal notices are not required by state or federal law.

A. Alpha Numeric License Plates.

1. These license plates are issued on a passenger automobile, motor home, motor coach, trailer, heavy truck, truck tractor and bus whether privately owned, for-hire or motor vehicle dealer. License plates are issued or transferred interchangeably for certain types of vehicles and class codes. The expiration date is determined by class code and registration use code.
2. Dealer license Plates: License plates issued to a dealer for use on vehicles in their inventory are imprinted with “Dealer” at the bottom. These are not to be used on wreckers or car carriers. Refer to procedure [RS-26](#). The motorcycle dealer license plate does not have “Dealer” imprinted on the bottom. The expiration date is determined by the expiration date of the dealership’s dealer license.
3. Restricted License Plates: all vehicles that are issued a Restricted license plate have a restricted use, depending on the specific reason it was issued. See “Vehicle Class Combination” in the

motor vehicle issuance system for a list of all restricted license plates. Examples: the restrictions for agriculture/horticulture are that the owner must be the grower, own the heavy truck or truck tractor and haul within a 150-mile radius of the vehicle's home address. The restriction for tool (crane, well driller, etc.) is that it may not carry a load or pull a trailer. Refer to [RS-66](#).

4. Permanent Semi-Trailers: Permanent license plates are issued for private or for-hire semi-trailers. The license plate is not transferable and does not expire. Refer to Procedure [RS-63](#).

5. Motorcycles:

- a. A motorcycle is motor driver, has a seat or saddle, and is a kick or electric start. There are two categories: over 50 cubic centimeters displacement engine (over 5 BHP) and up to 50 cubic centimeters displacement engine (below 5 BHP).
- b. A moped has pedals to permit propulsion by human power, a seat or saddle, designed to travel on not more than 3 wheels, a motor not more than 2 BHP and not capable of propelling the vehicle at a speed greater than 30 MPH on level ground. It also has a power-drive system that functions directly or automatically without clutching or shifting gears by the operator after the drive system is engaged.
- c. A motorized disability access vehicle is designed to be fueled by gasoline or electricity and used primarily for handicapped individuals with normal upper body abilities to drive their wheelchairs up into a motor vehicle. It must travel on not more than 3 wheels with a motor rated not more than 2 BHP and not capable of propelling the vehicle at a speed greater than 30 MPH on level ground. The power-driven system shall function directly or automatically without clutching or shifting gears by the operator after the drive system is engaged. If an internal combustion engine is used, the displacement may not exceed 50 cubic centimeters. Body type is 'DA', see procedure [RS-61](#).

- d. Motorized Bicycle, the 1991 Legislature de-authorized the registration of motorized bicycles. A license plate is no longer issued. However, if the bicycle is motorized with a gas, not electric motor, see procedure [RS-68](#) for registration requirements.

B. Special License Plates:

1. These are license plates where the customer must meet specific qualifications to obtain the license plate. Refer to the separate procedure when applicable for instructions on the application, issuance, transfer, replacement and renewal of each of these special category license plates:

- Amateur Radio

F. Standard, specialty, military, authenticated, commercial vehicle, front end for emergency personnel, governmental, historical vehicle, diplomatic/legislative, miscellaneous, motorcycle, decals and permits: View the online brochure at following link to see all Florida License Plates, Decals, Permits, etc.

G. Validation Decals:

The validation decal is affixed to the upper right corner of the license plate in the indentation provided. This decal indicates the month and year of expiration, the sequential decal number, the license plate number, and type of vehicle (vehicle, trailer, mobile home, or vessel) which indicates payment of registration taxes paid for that period. Some decals may be issued once as part of a permanent registration. In the situation with dual plates, only the front plate will receive a decal.

H. Mailing Fees:

Refer to form [License Plate Rate Chart – HSMV 83140](#), for applicable mailing fees.

I. Inventory Codes:

Each type of license plate has an inventory code. All inventory codes, which end with the letter "R", indicate regular license plates. All inventory codes which end with the letter "P", indicate personalized license plates. All inventory codes which end with the letter "A", indicate Amateur Radio license plates.
