PROCEDURE: RS-55  
SUBJECT: FLEET REGISTRATION PROGRAM

DESCRIPTION AND USE:  
THIS PROCEDURE PROVIDES INFORMATION AND INSTRUCTIONS TO ASSIST EMPLOYEES OF THE TAX COLLECTOR, LICENSE PLATE AGENT, AND THE FLORIDA DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES (FLHSMV) WITH THOSE COMPANIES ELIGIBLE FOR FLEET LICENSE PLATES

I. PROVISIONS OF LAW

Section 320.0605, Florida Statutes. Certificate of registration; possession required; exception - The registration certificate or an official copy thereof, a true copy of a rental or lease agreement issued for a motor vehicle or issued for a replacement vehicle in the same registration period, a temporary receipt printed upon self-initiated electronic renewal of a registration via the Internet, or a cab card issued for a vehicle registered under the International Registration Plan shall, at all times while the vehicle is being used or operated on the roads of this state, be in the possession of the operator thereof or be carried in the vehicle for which issued and shall be exhibited upon demand of any authorized law enforcement officer or any agent of the department, except for a vehicle registered under s. 320.0657.

The license plates have a distinctive color and have the word "FLEET" appearing at the bottom and the word "FLORIDA" appearing at the top. There are no annual validation decals or individual registration certificates required.

Section 320.0657 For additional fees, fleet companies may purchase specialty license plates in lieu of the standard fleet license plates. Fleet companies shall be responsible for all costs associated with the specialty license plate, including all annual use fees, processing fees, fees associated with switching license plate types, and any other applicable fees.

Section 320.08056(2)(b) The department may authorize fleet specialty license plates. With the permission of the sponsoring specialty license plate organization, a fleet company may purchase specialty license plates to be used on fleet vehicles. (c) Notwithstanding s. 320.08058, a fleet company specialty license plate must include the letters "FLR" on the right side of the license plate. Fleet specialty license plates must be ordered directly from the department.

Section 320.01(11)(a), Florida Statutes. “Motor vehicle” means an automobile, motorcycle, truck, trailer, semitrailer, truck tractor and semitrailer combination, or any other vehicle operated on the roads of this state, used to transport persons or property, and propelled by power other than muscular power.

Revision(s) to this Procedure: Legislative updates to F.S. 320.0657 allows fleet companies to purchase specialty plates and 320.08056(2)(b) which authorizes FLHSMV to allow specialty plate for fleet vehicles pursuant to HB 1135. Added Historical Revisions.
SPECIALTY LICENSE PLATES:

A. A fleet company, with the permission of the sponsoring specialty license plate organization, may purchase specialty license plates to be used on fleet vehicles. This will require the fleet company to contact the organization directly. If approved, the organization must supply the fleet company with an approval letter on their letterhead.

B. Fleet companies may purchase specialty license plates in lieu of the standard fleet license plates. The purchase must be done 3 months prior to the renewal of regular plates, and the placement order for specialty plates. The current process of obtaining a specialty license plate will be used to conduct the transaction. Fleet companies shall be responsible for all costs associated with the specialty license plate, including all annual use fees, processing fees, fees associated with switching license plate types, and any other applicable fees.

For additional information refer to Procedure RS-22.
